

# METIS plus SLEEPING

# METIS plus

**METIS plus** catches the eye by virtue of its valuable high-gloss surfaces in classical grey and pure white. The light style of design is most convincing in both the single-coloured and mixed coloured versions. Natural oak and core walnut (only available for chosen units) are additional versions which represent a contrasting and natural enhancement to the range.

## Wardrobes

Hinge- and folding-door wardrobes according to the endless assembly principle and sliding-door wardrobes

- Hinge- and folding-door wardrobes can be combined with one another
- With plain doors, with optional mirror or with wooden accent in natural oak or core walnut
- With optional all-round passepartout
- With optional top LED lamp (12 V; 2.4 W)
- Corner wardrobe 45° (hinge-door)
- Intermediate units in two widths for a more open look, with optional functional inside TV fittings
- Drawer frames and drawer carcass of intermediate units in standard grey
- Extra-wide panorama units of folding-door wardrobes without centre partition
- Sliding-door wardrobes in three widths, with optional high-gloss or mirror doors or with wooden accent in natural oak or core walnut
- Wardrobe interior carcass and wardrobe interior fittings in standard white lacquer
- Functional and high-quality **wardrobe interior fittings** (see „Wardrobe interior fittings“ type list)

## Beds

- Bed-on-legs system in two different sleep surface heights, four widths and three lengths: Beds-on-legs with optional headboard in high-gloss version with aluminium coloured functional fillet integrated in headboard or with upholstered headboard; bed surround in optional high-gloss version, in wood version or in upholstered version; beds with optional standard legs or round legs in optional aluminium colour or high-gloss chrome version
- Comprehensive range of bed accessories

In combination with the hülsta Sleeping System, the beds guarantee highest sleeping comfort. With its high-grade quality spring base frames and mattresses, the hülsta Sleeping System provides the perfect prerequisites for relaxing sleep (see „**SLEEPING SYSTEMS**“ type list).

## Ancillary units

- Consoles and chests in two heights; on optional 10 cm high legs, in optional aluminium colour or high-gloss chrome version, or on 3 cm high plinth legs
- A multitude of utility chests; utility chests on optional 10 cm high legs, in optional aluminium colour or high-gloss chrome version, or as wall units
- Cover shelves of ancillary units of rear-lacquered glass
- Ancillary unit handles in optional aluminium colour or high-gloss chrome version
- Ancillary unit interior carcass in standard white lacquer
- Drawer frames of ancillary units in standard grey
- Angled shelves with storage shelf of glass, with optional lamp
- Mirrors

## Quality features

- All wardrobe doors with cushioning bracket
- Wardrobe doors with metal handle and high-quality spring hinges
- Extra-wide fitted wardrobe shelves (160 and 200 cm) of 3-layered quality chipboard
- All metal hinges
- Visually unobtrusive 2.5 mm drilled holes for wardrobes
- Centre partitions and end side-sections of wardrobes with special plinth adjustment
- **hülsta-SoftFlow**: Drawers of intermediate units and of ancillary units on hidden bearings incl. auto pull-in feature with cushioning bracket
- **hülsta-SoftGlide**: Doors of sliding-door wardrobes with pneumatic auto pull-in feature in opening and closing directions
- **hülsta-MagicClose**: All wooden hinge-doors with door hinge cushioning device

**Important notes:** Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units. That is why wall mounting should only be carried out by properly trained and qualified fitters. hülsta supplies materials for mounting units on walls for nearly all the units and which should be used for safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete in firmness class C12/15.

For other materials (please see separate materials table in the wall composition chapter) we provide you with an assembly mortar set as an extra order. Please note that this assembly mortar set is also only suitable for the materials listed in the materials table. If walls are made up of other materials (e.g. plastered or lighter wall materials), one should use another method of mounting better suited to the load on site. Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used. For the reasons stated above it is absolutely essential to enquire about the composition of any walls before signing any contracts.

List of System versions

Model no.	Version
800 801	High-gloss grey High-gloss pure white

Important notes:

Wardrobes:

With METIS plus wardrobes it is possible to order the carcass and the front in different versions. In this case, please state the model number for the carcass and front separately. Please state this clearly in the order! Wardrobe exterior carcass and passepartout in grey lacquer (for the high-gloss grey version) resp. in pure white lacquer (for the high-gloss pure white version); interior carcass in standard white lacquer.

Ancillary units:

With METIS plus ancillary units it is possible to order the carcass, front and cover shelf in different versions. In this case, please state the model number for carcass, front and cover shelf separately. Please state this clearly in the order! Standard version of cover shelves of ancillary units in grey rear-lacquered glass (for the high-gloss grey version) resp. in white rear-lacquered glass (for the high-gloss pure white version); interior carcass in standard white lacquer.

Beds:

Bed system optionally with headboard in high-gloss version or with upholstered headboard, bed surround frame optionally in high-gloss version, in wooden version or in upholstered version

**hülsta cover collection: see “hülsta cover collection” type list!**

List of Accent versions

Model no.	Wardrobes, beds, (wall) utility chests and angled shelves
832 833	Natural oak Core walnut
<b>Note:</b> The natural oak and core walnut accent versions are only available for chosen components. These are specially marked.	

Handle versions

Hinge-/folding-door wardrobes

With the METIS plus hinge- and folding-door wardrobes you can choose between the aluminium coloured and high-gloss chrome handle versions (without surcharge). The required handle version must be stated in the order. If no handle version is stated in the order, handle 013 is supplied ex-works.	
<b>Handle 013</b> Standard handle, aluminium coloured	<b>Handle 026</b> High-gloss chrome
 Handle height: 114.9 cm	 Handle height: 114.9 cm

Handle versions

Ancillary units and intermediate units

With the METIS plus ancillary units and intermediate units you can choose between the aluminium coloured and high-gloss chrome (surcharge) handle versions. The required handle version must be stated in the order. If no handle version is stated in the order, aluminium coloured handles are supplied ex-works.	
Standard handle, aluminium coloured	High-gloss chrome (surcharge)
	

Labelling in type list drawings /  
assembly notes for wall units

The majority of units have two wall mounting points (= number of base plates), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= base plates) is required, this is marked in the drawings in the type list with numbers in black boxes. Please be sure to note here the information and notes in the “Wall composition” chapter!

3  
4

Notes on delivery:

The majority of the units are delivered standard as **fully connected units (glued)** so that the carcass **cannot be disassembled**. There are however some **exceptions** to this rule:

Some carcasses are delivered as complete units but can be **disassembled into individual sections** in the final customer’s home. These types are marked with a **1** in the type list.

1

Some carcasses are delivered **in individual sections** because of their size. These types are marked with a **2** in the type list.

2

The fronts with the number **2** are delivered separately and can therefore always be (dis-) assembled.

# Special combinations

Please also note the mattresses and base frames in the “Sleeping systems” type list!

Special combinations consisting of a bed unit (bed and two drawer consoles) and a wardrobe.

The price of an entire special combination (bed unit and wardrobe) can be found in the grey shaded boxes!

**Bed:** Bed with headboard and surround in high-gloss version on standard legs (aluminium colour, powder coated)

**Consoles:** Consoles with 2 drawers on 3 cm high plinth legs

**Wardrobe:** Wardrobe with optional hinge- or folding-doors

Height reductions of hinge- and folding-door wardrobes at intervals of 1.0 cm without surcharge.

## Important note:

Bed and consoles are possible in all leg variations. Bed also optionally in sleep surface height 2 or with an upholstered headboard, bed surround frame optionally in wooden version or upholstered version (against surcharge).

See here next pages!

**Special-sized products for special combinations** are possible! **Pricing:** special combination + 15% plus all the required special-sized products (see „Special-sized products“)!

**Please note:** Height reductions of wardrobes remain free of charge!

**Important:** Choose a bed with headboard and surround in high-gloss version (all bed sizes possible – please state type number; see page 16), two consoles (consoles types 5052 and 5062 possible – please state type number; see page 19) as well as one of the wardrobes listed below.

## Hinge-, folding- and sliding-door wardrobes

### Notes on planning hinge- and folding-door wardrobes according to the endless assembly principle

Hinge- and folding-door wardrobes can be planned endlessly and combined with one another. Due to the various element widths one can create many total wardrobe widths. In this way the available floor space can be exploited to the full. For each wardrobe combination, the first element on the left is considered to be the basic unit, incorporating both outer side-sections. One can only include one basic unit in each combination. When adding on extension units, the right-hand side-section of the basic unit is employed as the end side-section of the complete combination. In the case of single-door hinge-door units as well as folding-door wardrobes one can choose between left- and right-hand hinges. The graphics shown on the next page give you an excerpt from our wardrobe assortment. We suggest using intermediate units for creating an alternative look. Sliding-door wardrobes are available in three different widths. Sliding-door panels are optionally available with high-gloss or mirror panels or with a wooden accent in natural oak or core walnut.

Standard interior fittings per unit: 2 fitted shelves, 1 clothes rod. All interior surfaces are in white lacquer.

### Dimensions

	without passepartout *	with passepartout *	with LED top lamp	with passepartout * and top LED lamp
Heights	<b>229.6 cm</b> (Total height of sliding-door wardrobes incl. sliding-door brackets: 231.6 cm)	<b>232.5 cm</b>	<b>234.6 cm</b>	<b>237.5 cm</b>
Depths	<b>61.6 cm</b> (Hinge- and folding-doors) <b>67.7 cm</b> (Sliding-doors)	<b>61.6 cm</b> (Hinge- and folding-doors)	<b>72.0 cm</b>	<b>72.0 cm</b>
Widths	see pages 8-14			

Height reductions of hinge- and folding-door wardrobes at intervals of 1.0 cm without surcharge (for sliding-door wardrobes against surcharge).

\* Passepartout not possible for sliding-door wardrobes!

Hinge-door wardrobe

- Hinge-door wardrobes can be combined with folding-door wardrobes and intermediate units
- Front mirrors and front accent in wooden version available at a surcharge
- Intermediate units for optical alternation
- Unit outside widths: 42, 52, 82, 102 cm (basic units)  
40, 50, 80, 100 cm (extension units)  
80, 100 cm (intermediate units)
- Unit inside widths: 38, 48, 78, 98 cm
- Outside depth: 61.6 cm
- Inside depth: 56 cm
- Door opening angle: approx. 110°

For calculating the total width when fitting the passepartout frame, please note the passepartout frame protrusion of 1.7 cm left and right!

Folding-door wardrobe with intermediate unit

- Folding-door wardrobes can be combined with hinge-door wardrobes and intermediate units
- Extra-wide panorama units in 160/162 and 200/202 cm width, without centre partition
- Front mirrors and front accent in wooden version available at a surcharge
- Intermediate units for optical alternation
- Unit outside widths: 82, 102, 162, 202 cm (basic units)  
80, 100, 160, 200 cm (extension units)
- Unit inside widths: 78, 98, 158, 198 cm
- Outside depth: 61.6 cm
- Inside depth: 56 cm

For calculating the total width when fitting the passepartout frame, please note the passepartout frame protrusion of 1.7 cm left and right!

Sliding-door wardrobe

- Fronts: High-gloss doors, mirror doors or doors with front accent in wooden version
- Wardrobe outside widths: 242, 272, 302 cm
- Unit inside widths: 118, 133, 148 cm
- Outside depth: 67.7 cm (with handle)
- Inside depth: 56 cm

Lamps

All hinge-, folding- and sliding-door wardrobes are available with top LED lamps. The top LED lamp is fitted above each element – 1 or 2 door – 12 V; 2.4 W (exception panorama unit and sliding-door wardrobes: two top LED lamps). If required, a top LED lamp can be fitted centrally above each door. It is also possible to remove individual lamps with a price reduction.

Please include a sketch in all cases.

Switching is done by an external footswitch. A remote control unit is also available as an alternative, which is charged extra. The remote control unit incorporates one transmitter and one receiver which operate all the LED lamps. The footswitch is omitted when the remote control unit is employed.

Please note: When planning a passepartout with top LED lamps, please note that a distance of at least 2.0 cm to the ceiling must be observed.

Interior TV unit fitting A for intermediate units 1 and 2

TV compartment including cable aperture in TV panel (usable inside dims.: 67.0 cm high, 71.0 (or 91.0) cm wide, 35.5 cm deep; max. load: 60 kg); 2 open compartments below for electronic equipment (usable inside dims. per compartment: 10.0 cm high, 35.0 (or 43.0) cm wide, 47.0 cm deep)

Please observe the space requirements given by the electrical dealer (heat build-up)!

Please note:

- When interior TV unit fittings are included, the doors of the intermediate units are fitted with 165° hinges ex-works.
- The 2 fitted shelves, which are fitted standard in the intermediate unit behind the doors, are omitted and the price has already been deducted.
- Because of the 165° hinges on the intermediate unit including the interior TV unit fittings, the door hinges of any 1-door wardrobe units included which are situated directly next to the intermediate unit must be fitted on the side next to this intermediate unit!

Surcharge for interior TV unit fitting A

for 80 cm wide intermediate unit	79601
	-
for 100 cm wide intermediate unit	79611
	-

Interior TV unit fitting B for intermediate units 1 and 2

TV compartment including cable aperture in TV panel (usable inside dims.: 67.0 cm high, 71.0 (or 91.0) cm wide, 35.5 cm deep; max. load: 60 kg) and with flat screen support, ideally adaptable; 2 open compartments below for electronic equipment (usable inside dims. per compartment: 10.0 cm high, 35.0 (or 43.0) cm wide, 47.0 cm deep)

Please observe the space requirements given by the electrical dealer (heat build-up)!

The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-216 cm (40"-85"; please observe the usable dims. of the TV compartment; see above); max. load 45 kg.  
Suitable for curved TV's. Flat screen support compatible with VESA Norm standard: min.: 200 x 200 mm, max.: 600 x 400 mm

Surcharge for interior TV unit fitting B

for 80 cm wide intermediate unit	79602
	-
for 100 cm wide intermediate unit	79612
	-

Please note:

- When interior TV unit fittings are included, the doors of the intermediate units are fitted with 165° hinges ex-works.
- The 2 fitted shelves, which are fitted standard in the intermediate unit behind the doors, are omitted and the price has already been deducted.
- Because of the 165° hinges on the intermediate unit including the interior TV unit fittings, the door hinges of any 1-door wardrobe units included which are situated directly next to the intermediate unit must be fitted on the side next to this intermediate unit!

# Sliding-door wardrobes

For each project please remember to leave a 4.0 cm gap between wardrobe carcase and the ceiling and 2.0 cm at the side for assembly!

<p>Height: 229.6 cm (total height incl. sliding-door brackets: 231.6 cm; height with top LED lamp: 234.6 cm) Width: see table Depth (with handle): 67.7 cm (depth with top LED lamp: 72.0 cm) Inside depth: 56 cm</p> <p>Interior fittings per unit: 2 fitted shelves, 1 clothes rod. Sliding-door wardrobes with standard aluminium coloured handle profiles.</p> <p><b>Passepartout is not possible!</b></p>		<p>Instead of the high-gloss fronts individual panels of the sliding-door wardrobe can also be ordered with a mirror panel or a wooden accent in natural oak or core walnut. Therefore, please state exactly in your order which sliding-door panels you require in which version!</p>	
<div>Please also note the functional and high-quality <b>wardrobe interior fittings</b> in the „Wardrobe interior fittings“ type list as well as the special articles and possible <b>special-sized products</b>.</div>	<p><b>Surcharge for top LED lamp</b></p> <p>2 lamps</p>  <p>Information on the energy class: see page 7 below!</p> <p>Price reduction for lamps and surcharge for remote control unit see page 7.</p>	<p><b>Sliding-doors with wooden accent in natural oak or core walnut</b></p> <p>Each sliding-door panel can be fitted with an optional wooden accent (without surcharge).</p> 	<p><b>Surcharge for sliding-doors with mirror panel</b></p> <p>Each sliding-door panel can be fitted with an optional mirror panel which is charged extra.</p> 
 <p>Inside width: 2 x 118 cm</p>		<p>Please mark exactly in the front sketch or state in the order (from the left) which sliding-door panels are to be fitted with a wooden accent in natural oak or core walnut.</p> <p>without surcharge</p>	<p>Please mark exactly in the front sketch or state in the order (from the left) which sliding-door panels are to be fitted with a mirror panel.</p> <p><b>Surcharge per sliding-door panel:</b></p> <p>-</p>
<p><b>A 2421</b></p> <p>-</p>	<p><b>383</b></p> <p>-</p>		
 <p>Inside width: 2 x 133 cm</p>			
<p><b>A 2721</b></p> <p>-</p>	<p><b>383</b></p> <p>-</p>		
 <p>Inside width: 2 x 148 cm</p>			
<p><b>A 3021</b></p> <p>-</p>	<p><b>383</b></p> <p>-</p>		

Electrical opening system for sliding-door wardrobes

The sliding-door wardrobes can also be fitted with an optional electrical opening system. The sliding-door then opens or closes automatically when pushed slightly. Open sliding-doors will close automatically after approx. 2 minutes.  
The electrical opening system is not possible when a reversed sliding-door wardrobe is required.  
For each project please remember to leave a **10.0 cm gap** between the wardrobe carcass and the ceiling for assembly if the electrical opening system for sliding-door wardrobes is included!

Special sizes for sliding-door wardrobes with electrical opening system:

Height reductions are possible down to max. 180 cm height. For reasons of appearance, we also do not recommend the wardrobe being reduced below eye-level height.  
Width reductions are generally not possible.  
Depth reductions are possible for a maximum of 18 cm.

Electrical opening system  
for 2-door sliding-door wardrobes

# Switch options for lamps

## Magic-Tronic

The lamps are normally operated by an external footswitch. As an alternative we can also provide a Magic-Tronic switch, which is charged extra. By "stroking" the outer or top side of the unit at the same level as the invisible integrated sensor it is possible to switch all the lamps on and off ("Stroking method"). As an alternative the position of the hidden sensor can also be marked with a small metal plate on the furniture unit ("Marking method"). Lamps with a maximum power of 200 W can be operated by a Magic-Tronic unit (230 V). The footswitch is omitted when a Magic-Tronic unit is included.

### Standard position of Magic-Tronic for consoles and chests:

- for consoles and chests of the MULTI-VARIS range: sensor is fitted **12 cm from the rear rim in the outer side next to the bed and in approx. 7-15 cm from the top rim of the unit**

### Standard position of Magic-Tronic for MULTI-FORMA II wardrobes:

- for hinge- and folding-door wardrobes of the MULTI-FORMA II range: sensor is fitted **in the right passepartout in approx. 130 cm height** (Magic-Tronic is not possible for wardrobes without passepartout, in sliding-door wardrobes and in the room and niche system)

### Alternative positions:

If the Magic-Tronic sensor is to be fitted in the **left passepartout of the wardrobe** or **at any position other than that stated as standard** (e.g., if a unit is planned in a niche so that there is insufficient space to the right of the unit), **please state this clearly in the order and mark the position in the sketch. If in doubt, please contact your hülsta customer advisor!**

Illustration 1: "Stroking method"

Illustration 2: "Marking method"

Magic-Tronic

7617

-

## Examples of use (schematic diagrams)

**Black point** = Standard position of Magic-Tronic sensor for consoles and chests (example 1) or hinge- and folding-door wardrobes MULTI-FORMA II (example 2)

### Notes:

The black point in the drawings is the area where the Magic-Tronic sensor is invisibly integrated. If the surface is „stroked“ at this position, the lamps are switched on or off.

If you would like to mark the position of the Magic-Tronic sensor on the furniture, you can fit a small metal plate supplied separately at the corresponding position.

Example 1

for angled shelves of the METIS plus range

Example 2

for consoles and chests of the MULTI-VARIS range

Example 3

for hinge- and folding-door wardrobes of the MULTI-FORMA II range

Special heights, special widths, special depths

Special heights

- Hinge-, folding- and sliding-door wardrobes can be reduced in height at intervals of 1.0 cm.
- Below eye-level we recommend fitting a top cover shelf made of panelling material. Please state in order!
- Special heights in stepped versions (not possible on sliding-door wardrobes) at a surcharge.

Surcharge per step:

00030
-

Special widths

Only applies to hinge- and folding-door wardrobes

- Single-door units, left or right hinges, can be reduced down to 25 cm width (apart from profiled doors).
- Twin-door units can be reduced at both sides down to 50 cm total width (apart from profiled doors).
- Interior fittings such as drawers and other fittings cannot be reduced in width.
- For notes on width reductions on MULTI-FORMA II sliding-door wardrobes please see special-sized products for MULTI-FORMA II!

Special depths

- Depth reductions are made on side sections, plinths, cornices and shelves.
- Interior fittings such as drawers and other fittings cannot be reduced in depth.
- A max. reduction of 30.0 cm is possible on hinge- and folding-door wardrobes.
- A max. reduction of 9.0 cm is possible on profiled hinge-doors.
- For sliding-door wardrobes, a max. reduction of 30.0 cm is possible (max. 18 cm in combination with the electrical opening system for MULTI-FORMA II).
- Please note that for technical production reasons not every special depth can be achieved:  
2.5 cm standard reduction between 0 and 2.5 cm  
5.0 cm standard reduction between 4.5 and 5.0 cm  
27.5 cm standard reduction between 27.0 and 27.5 cm

Notes on calculating sizes of sloping units

Side sloping

Sloping is only possible on single-door units. The door hinge (left or right) is positioned on the taller outer side of the unit.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope (If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- B 1 = Width of slope
- B 2 = Width of slope
- G = Total width
- S = Wardrobe width

Please note!

- If the slope cuts across the position of a handle, the handle of this door only is positioned further down in production.
- As floors, ceilings and walls are never exactly straight, the exact room size must be measured using a spirit level.
- If a cornice is fitted, please state if this is to be continued in the sloping section.

Rear sloping

Rear sloping is possible on all wardrobe units.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope (If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- T 1 = Depth of slope
- T 2 = Depth of slope

Bed with two footboards (all-round bed;  
only possible for 200 cm length)

	99967	Price deduction	-
--	-------	-----------------	---

Special sizes are not possible on upholstered beds.

#### Special-sized products for special combinations:

Pricing: special combination + 15% plus all the required  
special-sized products (see above)

**More special products are possible.**

**Please get in touch with your customer advisor.**

Special articles

Wardrobe doors are also available as separate units and are charged as follows:

**For 1 hinge-door/folding-door wing:** 50% of the concerning 1-door hinge-door extension unit

**For 1 sliding-door including mechanism:** 35% of the twin-door sliding-door wardrobe

For door superstructures, type **100** (max. 98 cm wide, only for assembly between wardrobes): 100% of twin-door hinge-door extension unit

**Panels** for side and top covering of fitted wardrobes (support construction and fitting materials must be acquired on site).

**For veneered/lacquered versions** (max. 268.0 cm long, max. 59.0 cm wide, 2.0 cm thick)  
Basis charge per order: **9901** -  
+ price per m<sup>2</sup> - lacquer **990** -  
+ price per m<sup>2</sup> - veneer **990** -  
Veneer match with fronts can not be guaranteed.

**Edge veneer**  
for veneered/lacquered versions per m. length **9902** -

**165° hinges**  
Wardrobe doors can also be fitted with **165° hinges** against a surcharge (only possible on plain, straight hinge-doors). Please mark the doors clearly in the order!

Surcharge for 165° hinges per hinge-door: **180** -

**Individual special-sized products**  
If the special-sized product that you require is so unusual that it cannot be illustrated with the many special sized products that we already provide and charge for, then we will quote you the price using a 33 unit type factor. In your order please state for us the relevant enquiry number and the 33 unit type factor stated.

**33** -

Special colours; Note on „Blue Angel“ / Emissions label of DGM

**Special colours**  
All the hülsta lacquer colours are possible for nearly all the hülsta ranges. Availability and prices on request.

**Note on „Blue Angel“ (RAL-UZ 38) and Emissions label of DGM (Class A)**  
It is possible that the requirements of the „Blue Angel“ and the DGM Emissions Label cannot be met by some of the lacquer colours in price groups III and IV (see here the different lacquer versions in the NEO range), depending on the colour mix (surface ratio of these colours in the corresponding order). However, the legal requirements are definitely met in all cases!

# Usable bed inside height and space under bed

## Note on usable bed inside height:

The support slats of the hülsta beds are delivered in the centre position, i.e. they can be adjusted by 3.2 cm upwards and downwards. If the slats are set in the lowest position, the **maximum usable bed inside height** is achieved.

In the case of some beds, the bed inside height is comparatively low. This means that mattresses in combination with base frames that are somewhat higher are not held so well by the bed side sections. Please note that the usable bed inside height of beds with height adjustable support slats is reduced when these are set higher.

This is how to calculate the individual height from the data supplied with the base frames:

Example: bed and hülsta flex basic B base frame  
(back and foot sections adjustable)

Max. usable bed inside height:  
18.0 cm

approx. 12.5 cm for holding  
mattress

5.5 cm total height of base frame  
(example: hülsta flex basic B)

## Note on space under bed:

The storage space underneath the base frame is calculated from the bed height minus the usable bed inside height.

Example bed:  $42.2 \text{ cm} - 18.0 \text{ cm} = 24.2 \text{ cm}$ .

## Wall composition / assembly instruction

### Important notes:

The composition of walls must be ascertained before concluding a contract and be checked by a qualified fitter before assembly takes place.

Assembly may only be carried out by a qualified fitter under careful observation of the assembly instructions.

The plastic Rawl plugs supplied by hülsta as a standard set are only suitable for concrete  $\geq C12/15$ , if the wall composition and compression strength corresponds to the table below. Under no circumstances must a unit be assembled on light masonry.

Furthermore, we provide a mounting set with assembly mortar for the types of walls listed below (see assembly mortar set below). Again, assembly must be carried out by a qualified fitter under careful observation of the wall composition and assembly instruction. The compression strength levels stated below must be met under all circumstances.

### Materials table

with a description of which sets are to be used with the following types of walls:

Standard set	Assembly mortar set only suitable for the materials stated below!			
Concrete C12/15 Compression strength $\geq 15 \text{ N/mm}^2$ 		Building bricks Mz 12 Compression strength $\geq 12 \text{ N/mm}^2$		Solid blocks of light concrete V2 Compression strength $\geq 2 \text{ N/mm}^2$
		Limestone blocks KS 12 Compression strength $\geq 12 \text{ N/mm}^2$		Perforated blocks of light concrete Hbl 2 Compression strength $\geq 2 \text{ N/mm}^2$
		Perforated sand lime bricks KSL12 Compression strength $\geq 12 \text{ N/mm}^2$		Aerated concrete PP2 Compression strength $\geq 2 \text{ N/mm}^2$
		Vertically perforated bricks HLz 12 Compression strength $\geq 12 \text{ N/mm}^2$ Bulk density $\geq 1.0 \text{ kg/dm}^3$		

A different and more suitable type of mounting must be chosen by a qualified fitter in all other cases. hülsta cannot accept any responsibility for the choice of any other types of mounting! Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used. Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units.

## Mounting sets

### Labelling in type list drawings / assembly notes for wall units

The majority of units have two wall mounting points (= number of support boards), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= support boards) is required, this is marked in the drawings in the type list with numbers in black boxes. Every support board requires four mounting screws.

**3** = 3 support boards  
**4** = 4 support boards, etc.

One **assembly mortar set** is sufficient for up to a maximum of 3 support boards or 4 wall side-panels.

**Important note:** Depending on the composition of the wall (see wall types illustrated above), assembly must be carried out using the special assembly mortar set and a standard trade mastic tool which are the basic essentials for safe and clean workmanship.

### Standard set

The standard set consists of 4 plastic Rawl plugs and 4 mounting screws and is sufficient for 1 support board. The standard sets are included in the packet of fittings to match the number of support boards.

### Assembly mortar set for up to a maximum of 3 support boards consisting of:

9x injection retaining sleeve  
 9x screw-in sleeve  
 1x injection cartridge  
 2x static mixer  
 1x assembly instructions

Please use the mounting screws from the standard set (supplied free of charge).

### Example of order:

- Add up number of support boards for all existing unit types
  - Divide the sum by "3"
  - Round up the result to a full number
- = Number of assembly mortar sets required

M2

**Maximum individuality! – Maximal flexibility! – hülsta makes most of your special wishes possible.**  
And if you do have a wish which is not quite so easy to implement, just give us a call or send us a mail or a fax. We have our own hülsta "Special Wishes Team" who are there to help you realise just these customer requests. These colleagues are professionals when it comes to special products. They plan and calculate the products possible for you and even develop an alternative suggestion if the idea should turn out to be technically impossible.

**Here is an overview of the hülsta range of special wishes:**

- A lot of special products can be ordered simply via the type list
- Special-sized products are planned simply and professionally
- Competent colleagues advise you by phone, by fax and by mail
- You will be sent alternative suggestions if the idea is technically impossible
- Many special-sized products are available without a surcharge
- Specially qualified carpenters and technicians implement your plans perfectly
