Dining tables	3-17
Dining chairs	18-55
Cover collection, information on types of fabric and names of materials, leather care set	56-57

You can furnish your home as comfortably and exclusively as you like, without the right table and matching chairs the family's main meeting place is missing. This is where you come together to discuss things, to play games or to sit down to a nice meal. More and more flats and houses today have a separate dining room. And a kitchen, a living room or a representative hallway invites you to fit out a classy dining area.

Tables, chairs and cupboard units from hülsta that match absolutely perfectly in their design, material and colours. Whether the table needs to be round or rectangular, for four, eight or twelve persons, the table collection from hülsta provides you with a comprehensive choice. Wood, glass, lacquer surfaces or partly in metal, avantgarde or traditional, modern or natural: hülsta offers you some really unexpected alternatives.

Dining tables

The materials receive the highest quality of processing in the manufacture of our tables to guarantee long-term use without detriment to functions or appearance. The pull-out features are easy to operate so that surprise guests can be catered for quickly. Fine wood surfaces matching the hülsta ranges, a mixture of materials and an impressive range of sizes enable you to choose to suit your needs.

Dining room chairs

It is hülsta's aim to provide you with perfect sitting comfort that enables you to sit comfortably for hours, linked with safety in functions, perfect workmanship and a long life. That's why we place great value on the interior of the upholstery. hülsta only employs high-quality materials: the wood for the substructure, the springs and the different upholstery materials. By employing the most careful craftsmanship we produce furniture that is durable and retains its form even when under intensive use and units that are still just as comfortable to sit on after many years.

ET 1500

The sculptural one

The ET 1500 has something sculptural about it: the 3.2 cm thick table surface seems to literally „hover“ above the sturdy, down-to-earth support pillar – there is no frame to interrupt its pure and clear appearance – and free leg movement is always guaranteed.

Product spectrum

- Table lengths: from 180 to 240 cm, extendable to 350 cm
- Table widths: 95 cm and 110 cm
- 7 table surface sizes for 95 cm wide tables: 4 fixed sizes, 3 extendable sizes (tables enlarged by 110 cm) or 6 table surface sizes for 110 cm wide tables: 4 fixed sizes, 2 extendable sizes (tables enlarged by 110 cm)
- Table height: 75 cm
- Space between floor and table: 65.0 cm

Product features

- Veneer: the table surface is 3.2 cm thick and has a lengthwise veneer, the support pillar has an upright veneer which therefore gives it a very elegant appearance. The extension boards are 3.2 cm thick with a transverse veneer
- Table support pillar: the dimensions of this rectangular pillar varies according to the size of the table surface
- Plinth surface: the plinth surface consists of an 8 mm thick, black steel plate which is covered by a 1.5 mm thick, stainless steel plate. There is a 1.1 cm high adjustable leg for adapting the height (adjustment spectrum: 4 mm).

Functions/technology

- Extension feature: the support pillar is used for storing the optional extension boards (accessible via a small door). Felt gliders and felt caps ensure that no damage is done when removing or replacing the boards. The extension boards are then placed on a drawer and fixed in position by pushing them in gently.

List of versions

Support pillar: Wood and lacquer (see list of versions)
Table surface: Wood and white lacquer (see list of versions)

Version no.	Support pillar versions	Version no.	Tabletop versions

T 70

In a length of up to 3 metres, the T 70 dining table still stands firm: but how can it do that? The elaborate tabletop stands on metal legs which appear to cushion the corners exactly in an elegant turn. hülsta is setting new standards with this design – including its metal construction which is perfectly concealed in the wood. All that is visible is the smooth wooden surface integrated in its solid wooden frame.

Product spectrum

- Table lengths: 140 cm, 180 cm, 220 cm, 260 cm, 300 cm
- Table widths: 80 cm, 95 cm, 120 cm
- Table height: 74 cm
- Space between floor and table: approx. 69 cm

Product features

- Table substructure of metal
- Tabletops with lengthwise veneer, 4.6 cm thick

T 80

The **T 80** brings people together – more closely and communicatively than a different shape of table could. It forms the inviting centrepiece in the room for the family breakfast, meeting friends and everything that is best discussed at a round table. The T 80 likes to be at the centre of things. The elliptical tabletop made of warm wood, cool ceramics or soft and smooth Fenix rests on its expansive metal leg.

Product spectrum

- Table lengths: 220 cm and 240 cm
- Table widths: 110 cm and 120 cm
- Table height: 75 cm
- True height between floor and table: approx. 72.0 cm

Product features

Mixxit T 90

with 4-legged substructure

The **Mixxit T 90** is made exactly to meet your wishes: in two designs, as a column table or a four-legged model, it invites you to dine, chat and relax. Many features of this modern table system can be individualised and adapted to surrounding furniture, for the Mixxit T 90 is a true miracle of materials. Both the tabletop itself as well as the wooden insets in the table legs or pedestals in lacquer or powder-coated metal can be selected in lacquer, wood, ceramic or Fenix versions – matching the storage ranges from hülsta. This all-rounder can be extended in one or two moves by 50 or 100 cm as required. In this respect it has again been constructed in exemplary fashion, being both smooth running and durable. The extension boards are easy to adjust with just one hand.

Product spectrum

- Table lengths: 140 cm, 160 cm, 180 cm, 200 cm, 220 cm, 240 cm
- Table width: 95 cm
- Table height: 75 cm
- Space between floor and table: approx. 67.5 cm

Product features

- Tabletop, extension boards and inset 4-legged substructure: for wood/lacquer/Fenix versions: 1.6 cm thick; for ceramic versions: 0.6 cm thick ceramic tabletop on 1.0 cm black baseboard
- Direction of grain for wood versions: tabletop and inset lengthwise, extension boards transverse
- Table substructure: the substructure is of aluminium, optionally with veneer coating

Functions/technology

- Frontal slide extension: the table legs stand at the table corners even when it is extended because the substructure moves with them
- Extension system: easy running aluminium extension system on roller bearings
- Extension boards with user-friendly single handed operation
- Table extremely stable even when extended
- Low frame height due to extra thickness of frame material provides extra freedom for legs

For the T 90 with 4-legged substructure it is possible to order the tabletop, the extension boards, the substructure and the inset 4-legged substructure in different versions. In this case please state the version no. for the tabletop, the extension boards, the substructure and the inset 4-legged substructure separately.

* Extension boards in ceramic versions can only be fitted in tables with tabletops in ceramic versions.

** The 4-legged substructure of metal can be supplied optionally with a veneer coating (at a surcharge).

*** If the inset 4-legged substructure is ordered in a ceramic version, the tables with tabletops in lacquer, wood and Fenix versions are charged in price group III and the tables with tabletop in ceramic versions are charged in price group IV.

Mixxit T 90

with column leg substructure

The **Mixxit T 90** is made exactly to meet your wishes: in two designs, as a column table or a four-legged model, it invites you to dine, chat and relax. Many features of this modern table system can be individualised and adapted to surrounding furniture, for the Mixxit T 90 is a true miracle of materials. Both the tabletop itself as well as the wooden insets in the table legs or pedestals in lacquer or powder-coated metal can be selected in lacquer, wood, ceramic or Fenix versions – matching the storage ranges from hülsta. This all-rounder can be extended in one or two moves by 50 or 100 cm as required. In this respect it has again been constructed in exemplary fashion, being both smooth running and durable. The extension boards are easy to adjust with just one hand.

Product spectrum

- Table lengths: 140 cm, 160 cm, 180 cm, 200 cm, 220 cm
- Table width: 95 cm
- Table height: 75 cm
- Space between floor and table: 66.5 cm

Product features

- Tabletop, extension boards and inset column leg substructure: for wood/lacquer/Fenix versions: 1.6 cm thick; for ceramic versions: 0.6 cm thick ceramic tabletop on 1.0 cm black baseboard
- Direction of grain for wood versions: tabletop and inset lengthwise, extension boards transvers
- Base plate: the base plate is made of 8 mm thick metal

Functions/technology

- Synchronised extension: Thanks to the cable mechanism, the tabletop moves synchronously when extended. This means that the column leg substructure remains in its original position even when the table is extended.
- Extension system: easy running aluminium extension system on roller bearings
- Extension boards with user-friendly single handed operation
- Table extremely stable even when extended
- Low frame height due to extra thickness of frame material provides extra freedom for legs

T 100

The two characteristic features of the **T 100** are the octagonal rather than rectangular solid wood table top that is tapered towards the edges and the metal frame. Its shape ensures plenty of legroom anywhere around the table. Made from elegant oak, the versatile T 100 is the perfect meeting point in your home.

Product spectrum

- Table lengths: 160 cm, 180 cm, 200 cm, 220 cm
- Table width: 95 cm
- Table height: 73.7 cm
- Space between floor and table: 71.5 cm

Product features

- Tabletop of solid wood, 2.2 cm thick
- Table substructure of metal anthracite and quartz or chrome glossy

D 2

The cool classic one

D 2 is a chair range in a straightforward and clear form of design. A classical free-swinging substructure holds the comfortable upholstery. When the Easy-glider function is included, body weight transfer alters the angle of the backrest. The backrest follows the body movements when leaning forward and backward and thus effectively relieves the muscles. This means you can sit comfortably for hours on end.

Product spectrum

- 2 backrest heights: 85 cm and 97 cm
- All-round metal armrest with an upholstered surface coating
- Optional Easy-glider function: only possible for types with armrest

Product features

- Tubular steel construction (Ø 2.5 cm) or flat steel construction
- Backrest and seat: a long-term elastic, full surface rubber spring system provides the basis of the upholstery. This is firmly held in the tubular steel construction and therefore provides perfect sitting comfort.
- Seat upholstery: volume weight of 50 kg/m³, form retention: 5 kPa
- Backrest upholstery: volume weight of 30 kg/m³, form retention: 4.5 kPa
- Foam of polyurethane
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

D 2 with tubular steel construction

D 2 with flat steel construction

Metal surfaces

- High-gloss chrome
- Matt chrome

Cover materials

- High-grade leather in contemporary colours

Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.

- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are possible (price group = best cover price group)

Surface coating of metal armrests

The metal armrests have covers in the same fabric/leather type and colour as the reverse side of the chair back.

D 27

The light system chair

The lightness of the D 27 is most convincing, both in design and weight. It is clearly distinguished by the various substructure versions in wood and metal. The great number of versions available captivate the viewer with their graceful seams and the attractive contours of the inside sections of the armrests.

There are two different models of the D 27 to choose from.

Model 1: D 27 with intricate upholstery

(D 27-1, D 27-2, D 27-5 and D 27-6)

Product spectrum:

- Chair with or without armrests
- Armrest version: open armrests
- 2 substructure versions: 4-legged solid wooden substructure or free-swinging metal substructure

Product features:

- Seat bowl of 3-dimensionally profiled plywood with intricate upholstery of high-grade cut foam
- Individual choice of legs through 2 substructure versions: Substructure of solid wood in different wood versions or of tubular steel, optionally black, stainless steel colour or high-gloss chrome
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Metal surfaces

- Metal black
- Metal stainless steel colour
- High-gloss chrome

Cover materials

- High-grade leather in contemporary colours
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are possible (price group = best cover price group)

S 200

The S 200 is an extremely comfortable wooden chair that invites you to relax for a while and its timeless design attracts everyone’s glances. The substructure of solid oak or walnut harmonises perfectly with the finely upholstered ergonomic seat. Nappa leather is available as a cover in a choice of colours.

Product features

- Substructure of solid wood
- Back and seat of sturdy beech plywood
- Upholstery composition: polyurethane foam with a volume weight of 35/50 kg/m³ (RG 35/50) and an extra wadding layer (100 g)
- Chair delivered unassembled
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Wood surfaces substructure

- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Customer’s covers are not possible

Ordering note / example: Please add the corresponding cover no. to the type no. of the chair: - chair S 200 with substructure version in solid natural oak = type no. S00211 - with a cover in black leather = cover no. 5105 - results in order no. S002115105		Information on types of fabric and names of materials for covers see pages 56-57! S 300

S 300 is the family name for a chair series that is characterised by individuality and sitting comfort. The composition of the seat with its belt and Nosag springs means that you still feel comfortable after sitting on it for longer periods. Besides a variety of forms and substructures in metal or wood, there are also armrests and different types of seams on the chair back to choose from.

Product features

- Substructure of rectangular construction with a surface of metal (20 x 20 mm) or of solid wood (40 x 40 mm)
- Voluminous upholstery of substructures, seat composition with belts and Nosag springs
- Two different backrest heights
- With optional armrests
- With three optional seams for the backrest to choose from (see below)
- Seat upholstery composition: polyether foam with a volume weight of 40 kg/m³
- Back upholstery composition: polyurethane foam with a volume weight of 21 kg/m³
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Seams

Back without leather seam

Back with vertical leather seam

Back with horizontal leather seam

Colour combinations

With the S 300 it is possible to order the reverse side of the chair back with the sides of the seat surface and the front side of the chair back with the seat surface in different covers. Please state clearly in the order! When exchanging versions from different cover price groups, the higher cover price group is always charged.

Note: approximately the top 5 cm on the reverse side of the chair back are in the same cover version as the front side of the chair back.

Surfaces for substructure

- Ground stainless steel
- Metal anthracite
- Metal stainless steel colour
- High-gloss chrome
- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

Surface coating of metal armrests

The metal armrests have covers in the same fabric/leather type and colour as the reverse side of the chair back.

S 500

The S 500 chair specially designed for the T 70 dining table looks just as light with its curved backrest. The Keder seam on the leather fits snugly on the frame. It is already a classic in its own right in design and workmanship.

Product features

- 4-legged substructure of metal or solid wood
- Free-swinging substructure of metal
- Back section and seat of beech plywood, 17.0 mm or 10.5 mm thick
- Seat and back upholstery composition: polyurethane foam with a volume weight of 40 kg/m³ (RG 40)
- Max. loads: chair 120 kg, bench 400 kg
- Plastic and felt gliders are included (for hard and soft floors)

Surfaces 4-legged substructure

- Aluminium glossy
- Metal anthracite
- Metal stainless steel colour
- Solid natural oak
- Solid walnut

Surfaces of free-swinging substructure

- Metal anthracite
- Metal stainless steel colour
- High-gloss chrome

Cover materials

- High-grade leather in contemporary colours
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

Mixxit S 700

If you are looking for a modern chair on arched supports with an incredibly beautiful bowl seat, you will find just what you are looking for here, just as you would if you prefer an ultra-comfortable cushioned chair on a revolving star-shaped substructure or even an inviting free-swinging chair. The chair design of the S 700 does full justice to the Mixxit concept. With five substructures of wood or metal (also powder-coated), five bowl seats and numerous high-quality covers and even more colours, you can create innumerable variations to meet your own wishes – and, above all, your own individual favourite chair: with or without armrests in trendy textiles or soft Nubuk-Touch leather, with an all-round Keder seam for the bi-coloured cover or with a soft, integrated seat cushion. All the designs are extremely compatible so that you can now create a variegated table just in one colour with them.

Product features

- 5 different substructure versions, optionally:
Arched substructure of tubular steel construction, Ø 14 mm, with a surface of metal
Free-swinging substructure of tubular steel construction, Ø 22 mm, with a surface of metal
Star-shaped substructure, revolving, with a surface of aluminium
4-legged solid wooden substructure, Ø 37 mm, with transverse frames, Ø 32 mm
4-legged solid wooden substructure, chair legs narrowing from 36 to 25 mm
- With optional armrests
- Back and seat of plywood, stable in form, 1.1 cm thick
- Composition of upholstery of seat and back: polyurethane foam with a volume weight of 42 kg/m³
- Extra upholstery (chairs S 700-9 to -16, S 700-23 and -24): polyether foam with a volume weight of 23 kg/m³
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Colour combinations

With the S 700 it is possible to order the reverse side of the chair back and the front side of the chair back with the seat surface in different covers. Please state clearly in the order! When exchanging versions from different cover price groups, the higher cover price group is always charged.

S 800

The chair family **S 800** combines comfortable sitting with the highest design requirements. Depending upon taste, the backrests are available as a veneered bentwood shell, with upholstery in 2 different thicknesses or as a full cushion. A 4-legged solid wood substructure and a free-swinging substructure extend the choice of this range.

Product features

- 2 different substructure versions, optionally:
Free-swinging substructure of steel, Ø 22 mm, with a surface of chrome
4-legged solid wooden substructure, chair legs narrowing from 39 to 26 mm
- 4 different backrest versions, optionally:
Wooden backrest
Wooden backrest with thin back upholstery, back upholstery narrowing from 15 to 5 mm
Wooden backrest with thick back upholstery, back upholstery narrowing from 20 to 10 mm
Upholstered backrest
- Composition of upholstery: seat and back upholstery resp. backrest with a volume weight of 30 kg/m³, form retention: 3.5 kPa
- Foam of polyurethane
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Surfaces for substructure

- Solid natural oak
- Solid oak anthracite
- Solid walnut
- Matt chrome
- High-gloss chrome

Cover materials

- High-grade leather
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are not possible

B 100

Perfectly crafted and offering outstanding seating comfort, the upholstered bench range **B 100** invites you to sit. The voluminous and soft upholstery as well as the unmistakable rounding of the backrest provide sumptuous comfort for relaxed gatherings. The wide choice of different cover materials, upholstered bench units and frame versions allows you to configure an upholstered bench to suit your individual requirements.

Product features

Upholstered bench range with solitary benches, extension benches, corner units incl. backrests and protruding sides:

- Solitary upholstered bench:
160 cm, 180 cm, 200 cm, 220 cm, 240 cm, 260 cm
- Upholstered bench extension unit:
140 cm, 160 cm, 180 cm, 200 cm, 220 cm, 240 cm
- Upholstered bench extension unit with protruding side:
185 cm, 205 cm, 225 cm, 245 cm, 265 cm
- Upholstered bench corner unit:
157 cm, 172 cm, 177 cm, 192 cm, 202 cm, 222 cm
- Upholstered bench corner unit with protruding side:
202 cm, 217 cm, 222 cm, 237 cm, 247 cm, 267 cm
- Back and seat of Multiplex beech, 21 mm thick
- Composition of seat upholstery: 80 mm high, volume weight of 45 kg/m³, form retention: 5.5 kPa, with extra cover layer, 20 mm thick, volume weight of 40 kg/m³, form retention: 3.1 kPa
- Composition of back upholstery: 40 mm thick, volume weight of 45 kg/m³, form retention: 5.5 kPa, with extra cover layer, 40 mm thick, volume weight of 40 kg/m³, form retention: 3.1 kPa
- Foam of polyurethane
- Bench substructure of steel, coated with solid wood
- Max. load: 400 kg
- Plastic and felt gliders are included (for hard and soft floors)

Surfaces for substructure

- Solid natural oak
- Solid oak anthracite
- Solid walnut

Cover materials

- High-grade leather
Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's covers are possible (price group = best cover price group)

Do you have any questions, suggestions or wishes for the **hülsta product seminars**?
Contact Telephone: +49 (0) 2563 / 86-1493 • email: seminare@huelsta.com

hülsta Planning Service

Your furn plan planning is so complex that you need our support? We have created the hülsta Planning Service for this kind of situation. hülsta employees will check your planning as quickly as possible. The customer gets a planning that will inspire him!

hülsta Planning Service
Tel.: +49 (0) 2563 / 86-1060
Fax: +49 (0) 2563 / 86-1000
Mail: Planungsservice-Handel@huelsta.com
Mondays to fridays from 9.00 a.m. until 5.00 p.m.

Special wishes? Come to us!

Maximum individuality! – Maximal flexibility! – hülsta makes most of your special wishes possible.
And if you do have a wish which is not quite so easy to implement, just give us a call or send us a mail or a fax. We have our own hülsta "Special Wishes Team" who are there to help you realise just these customer requests. These colleagues are professionals when it comes to special products. They plan and calculate the products possible for you and even develop an alternative suggestion if the idea should turn out to be technically impossible.

Here is an overview of the hülsta range of special wishes:

- A lot of special products can be ordered simply via the type list
- Special-sized products are planned simply and professionally
- Competent colleagues advise you by phone, by fax and by mail
- You will be sent alternative suggestions if the idea is technically impossible
- Many special-sized products are available without a surcharge
- Specially qualified carpenters and technicians implement your plans perfectly

hülsta Special Wishes Team
Tel.: +49 (0) 2563 / 86-1060
Fax: +49 (0) 2563 / 86-1000
Mail: Sonderwunsch@huelsta.com

We are open Saturdays for you, too!

Our **Saturday hotline** is available from **10.00 a.m. until 5.00 p.m.**

Telephone: +49 (0) 2563 / 86-1800

The hülsta Sales Department is available
mondays to fridays from 9.00 a.m. until 5.00 p.m.
