LIVING

Dining

You can furnish your home as comfortably and exclusively as you like, without the right table and matching chairs the family's main meeting place is missing. This is where you come together to discuss things, to play games or to sit down to a nice meal. More and more flats and houses today have a separate dining room. And a kitchen, a living room or a representative hallway invites you to fit out a classy dining area.

Tables, chairs and cupboard units from hülsta that match absolutely perfectly in their design, material and colours. Whether the table needs to be round or rectangular, for four, eight or twelve persons, the table collection from hülsta provides you with a comprehensive choice. Wood, glass, lacquer surfaces or partly in metal, avantgarde or traditional, modern or natural: hülsta offers you some really unexpected alternatives.

Dining tables

The materials receive the highest quality of processing in the manufacture of our tables to guarantee long-term use without detriment to functions or appearance. The pull-out features are easy to operate so that surprise guests can be catered for quickly. Fine wood surfaces matching the hülsta ranges, a mixture of materials and an impressive range of sizes enable you to choose to suit your needs.

Dining room chairs

It is hülsta's aim to provide you with perfect sitting comfort that enables you to sit comfortably for hours, linked with safety in functions, perfect workmanship and a long life. That's why we place great value on the interior of the upholstery. hülsta only employs high-quality materials: the wood for the substructure, the springs and the different upholstery materials. By employing the most careful craftsmanship we produce furniture that is durable and retains its form even when under intensive use and units that are still just as comfortable to sit on after many years.

Sizes according to DIN 68878

ET 1000 plus The purist

Reduced to a clear form of design, underlined by a high-grade choice of materials and elegant yet strong materials. This clarity in the design is the basis of timeless design and long life. One's view wanders over surfaces without any interruptions from slats, edges or overintricate details.

Product spectrum

- Table lengths: 160, 190 and 220 cm, extendable to 220, 290 or 320 cm (tables enlarged by 60 or 100 cm)
- Table width: 94 cm
- Table height: approx. 75 cm
- Space between floor and table: 66 cm
- 4 different glass versions for the table surface

Product features

- Legs of aluminium, 12 x 2.5 cm, coated, on 5 mm high plastic gliders
- Tables with extension: the substructure of the tables with extensions can be fitted with optional runners at the extendable end (runners are supplied free of charge) in order to facilitate extending the table. Please note that these runners can leave some gliding marks.
- Extension board of glass
- 4 glass versions for the table surface, 4 mm thick, fitted on a 1.9 cm thick support board:
  - of Optiwhite glass, white rear-lacquered
  - of Optiwhite glass, sand rear-lacquered
  - of Optiwhite glass, grey rear-lacquered
  - of Optiwhite glass, white rear-lacquered underside, satinised topside

Functions/technology

- The extension consists of coated tubular aluminium sections that are pushed into one another, whereby the inner tube is reinforced by a steel rod.
- The leg and frame substructure at the head end is pulled out completely to reveal the folded extension board, which swings up to table surface height when folded out. The leg substructure is therefore always right at the corners of the table in its extended or non-extended state. Nor is there any gap in the table surface when it is not extended.

ET 1500 The sculptural one

The ET 1500 has something sculptural about it: the 3.2 cm thick table surface seems to literally „hover“ above the sturdy, down-to-earth support pillar – there is no frame to interrupt its pure and clear appearance – and free leg movement is always guaranteed.

Product spectrum

- Table lengths: from 180 to 240 cm, extendable to 350 cm
- Table widths: 95 cm and 110 cm
- 7 table surface sizes for 95 cm wide tables: 4 fixed sizes, 3 extendable sizes (tables enlarged by 110 cm) or 6 table surface sizes for 110 cm wide tables: 4 fixed sizes, 2 extendable sizes (tables enlarged by 110 cm)
- Table height: 75 cm
- Space between floor and table: 65.0 cm

Product features

- Veneer: the table surface is 3.2 cm thick and has a lengthwise veneer, the support pillar has an upright veneer which therefore gives it a very elegant appearance. The extension boards are 3.2 cm thick with a transverse veneer
- Table support pillar: the dimensions of this rectangular pillar varies according to the size of the table surface
- Plinth surface: the plinth surface consists of an 8 mm thick, black steel plate which is covered by a 1.5 mm thick, stainless steel plate. There is a 1.1 cm high adjustable leg for adapting the height (adjustment spectrum: 4 mm).

Functions/technology

- Extension feature: the support pillar is used for storing the optional extension boards (accessible via a small door). Felt gliders and felt caps ensure that no damage is done when removing or replacing the boards. The extension boards are then placed on a drawer and fixed in position by pushing them in gently.

List of versions

Support pillar: Wood and white lacquer (see list of versions)
Table surface: Wood and white lacquer (see list of versions)

Model no.	Support pillar versions	Model no.	Tabletop versions

ET 1900 The intricate one

German Design Award SPECIAL MENTION 2015

The lightness and intricacy of the ET 1900 is most convincing. The precise product and design details are pleasantly clear and coherent due to its neutral design and they are particularly suitable for creating individual combinations.

Product spectrum

- Table lengths: 160 cm, 180 cm, 200 cm, 220 cm, 240 cm
- Table width: 98 cm
- Tables extendable by 55 cm or 95 cm
- Table height: 75 cm
- Space between floor and table: 65 cm

Product features

- Table legs: aluminium profile powder-coated (for lacquer versions) or veneer coated (for wood versions)
- Table surface and extension boards in lacquer or full solid wood, 4.3 cm thick
- Veneer: the table surface has a lengthwise veneer, the extension boards have a transverse veneer (for wood versions)

Functions/technology

- The extension mechanism consists of 2 anodised aluminium tubes pushed into one another. The extension set is hidden under resp. stored in the tabletop and is only visible from a considerable distance.
- The leg and frame structure at the table ends is fully extended and brings the folded extension board into view when it swings up to tabletop height when folded out. The position of the leg substructure is therefore always exactly in the corner of the tabletop whether the table is extended or not.
- The table leg joins the tabletop precisely.
- The aluminium table legs are powder-coated for the lacquer versions and veneer-coated for the wood versions. They can be fixed extremely firmly in position and ensure the necessary stability. The table surface is 4.3 cm thick, but still allows a maximum table length of 335 cm.
- The solid wood rims on the table corners are mitre-jointed.
- The tabletop with its fully wooden construction provides a combination of stability and intricate design.

List of versions

Substructure/leg: Aluminium profile powder-coated or veneer-coated (see list of versions)
Tabletop: Lacquer and wood (see list of versions)

T 70

In a length of up to 3 metres, the T 70 dining table still stands firm: but how can it do that? The elaborate tabletop stands on metal legs which appear to cushion the corners exactly in an elegant turn. hülsta is setting new standards with this design – including its metal construction which is perfectly concealed in the wood. All that is visible is the smooth wooden surface integrated in its solid wooden frame.

Product spectrum
- Table lengths: 140 cm, 180 cm, 220 cm, 260 cm, 300 cm
- Table widths: 80 cm, 95 cm, 120 cm
- Table height: 74 cm
- Space between floor and table: approx. 69 cm

Product features
- Table substructure of metal
- Tabletops, lacquered or lengthwise veneer, 4.6 cm thick

T 80

The **T 80** brings people together – more closely and communicatively than a different shape of table could. It forms the inviting centrepiece in the room for the family breakfast, meeting friends and everything that is best discussed at a round table. The T 80 likes to be at the centre of things. The elliptical tabletop made of warm wood, cool ceramics or soft and smooth Fenix rests on its expansive metal leg.

Product spectrum
- Table lengths: 220 cm and 240 cm
- Table widths: 110 cm and 120 cm
- Table height: 75 cm
- True height between floor and table: approx. 72.0 cm

Mixxit T 90 with 4-legged substructure

The **Mixxit T 90** is made exactly to meet your wishes: in two designs, as a column table or a four-legged model, it invites you to dine, chat and relax. Many features of this modern table system can be individualised and adapted to surrounding furniture, for the Mixxit T 90 is a true miracle of materials. Both the tabletop itself as well as the wooden insets in the table legs or pedestals in lacquer or powder-coated metal can be selected in lacquer, wood, ceramic or Fenix versions – matching the storage ranges from hülsta. This all-rounder can be extended in one or two moves by 50 or 100 cm as required. In this respect it has again been constructed in exemplary fashion, being both smooth running and durable. The extension boards are easy to adjust with just one hand.

Product spectrum
- Table lengths: 140 cm, 160 cm, 180 cm, 200 cm, 220 cm, 240 cm
- Table widths: 95 cm and 110 cm
- Table height: 75 cm
- Space between floor and table: approx. 67.5 cm

Product features
- Tabletop, extension boards and inset 4-legged substructure: for wood/lacquer/Fenix versions: 1.6 cm thick; for ceramic versions: 0.6 cm thick ceramic tabletop on 1.0 cm black baseboard
- For wood versions: tabletop in lengthwise veneer, extension boards in transverse veneer, inset in vertical veneer
- Table substructure: the substructure is of aluminium, optionally powder-coated, anodised or with veneer coating

Functions/technology
- Frontal slide extension: the table legs stand at the table corners even when it is extended because the substructure moves with them
- Extension system: easy running aluminium extension system on roller bearings
- Extension boards with user-friendly single handed operation
- Table extremely stable even when extended
- Low frame height due to extra thickness of frame material provides extra freedom for legs

Mixxit T 90 with column leg substructure

The **Mixxit T 90** is made exactly to meet your wishes: in two designs, as a column table or a four-legged model, it invites you to dine, chat and relax. Many features of this modern table system can be individualised and adapted to surrounding furniture, for the Mixxit T 90 is a true miracle of materials. Both the tabletop itself as well as the wooden insets in the table legs or pedestals in lacquer or powder-coated metal can be selected in lacquer, wood, ceramic or Fenix versions – matching the storage ranges from hülsta. This all-rounder can be extended in one or two moves by 50 or 100 cm as required. In this respect it has again been constructed in exemplary fashion, being both smooth running and durable. The extension boards are easy to adjust with just one hand.

Product spectrum
- Table lengths: 140 cm, 160 cm, 180 cm, 200 cm, 220 cm
- Table widths: 95 cm and 110 cm
- Table height: 75 cm
- Space between floor and table: 66.5 cm

Product features
- Tabletop, extension boards and inset column leg substructure: for wood/lacquer/Fenix versions: 1.6 cm thick; for ceramic versions: 0.6 cm thick ceramic tabletop on 1.0 cm black baseboard
- For wood versions: tabletop in lengthwise veneer, extension boards in transverse veneer, inset in vertical veneer
- Base plate: the base plate is made of 8 mm thick powder-coated metal

Functions/technology
- Synchronised extension: Thanks to the cable mechanism, the tabletop moves synchronously when extended. This means that the column leg substructure remains in its original position even when the table is extended.
- Extension system: easy running aluminium extension system on roller bearings
- Extension boards with user-friendly single handed operation
- Table extremely stable even when extended
- Low frame height due to extra thickness of frame material provides extra freedom for legs

T 100

The two characteristic features of the **T 100** are the octagonal rather than rectangular solid wood table top that is tapered towards the edges and the metal frame. Its shape ensures plenty of legroom anywhere around the table. Made from elegant oak, the versatile T 100 is the perfect meeting point in your home. It effortlessly matches PERSIS or other hülsta design lines.

Product spectrum
- Table lengths: 160 cm, 180 cm, 200 cm, 220 cm
- Table width: 95 cm
- Table height: 73.7 cm
- Space between floor and table: 71.5 cm

Product features
- Tabletop of solid wood, 2.2 cm thick
- Table substructure of metal powder coated anthracite and quartz or chrome glossy

D 2

The cool classic one

D 2 is a chair range in a straightforward and clear form of design. A classical free-swinging substructure holds the comfortable upholstery. When the Easy-glider function is included, body weight transfer alters the angle of the backrest. The backrest follows the body movements when leaning forward and backward and thus effectively relieves the muscles. This means you can sit comfortably for hours on end.

Product spectrum

- 2 backrest heights: 85 cm and 97 cm
- All-round metal armrest with an upholstered surface coating
- Optional Easy-glider function: only possible for types with armrest

Product features

- Tubular steel construction (Ø 2.5 cm) or flat steel construction
- Backrest and seat: a long-term elastic, full surface rubber spring system provides the basis of the upholstery. This is firmly held in the tubular steel construction and therefore provides perfect sitting comfort.
- Seat upholstery: volume weight of 50 kg/m^3, form retention: 5 kPa
- Backrest upholstery: volume weight of 30 kg/m^3, form retention: 4.5 kPa
- Foam of polyurethane
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

D 2 with tubular steel construction

D 2 with flat steel construction

Metal surfaces

- Aluminium-coloured, powder coated
- High-gloss chrome
- Matt chrome
- Black chrome

Cover materials

- High-grade leather in contemporary colours
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Microfibre “Dinamica” in homely colours
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer’s fabrics possible (price group = best fabric price group)

Surface coating of metal armrests

The metal armrests have covers in the same fabric/leather type and colour as the reverse side of the chair back. However, the following exceptions apply.
For the textile cover fabrics **Structured fabric (63..), Cotton-wool-Jacquard (75..), Woven Jacquard (82..), Woven Jacquard glossy (83..)** and **Wool fabric (80..),** the armrests have covers in leather (51..) in the following colours:

in 5105 (black leather) for	6302	6304	6305	8001	8004	
in 5109 (cream leather) for	7501	8002				
in 5101 (beige leather) for	7502	8201				
in 5104 (anthracite leather) for	7504	7505	8204	8206	8207	8303
in 5110 (mocca leather) for	6301	6303	7503	8203	8205	
in 5114 (grey-brown leather) for	8003					
in 5122 (sand leather) for	8301					
in 5123 (brown-black leather) for	8302

D 24 The curved one

The D 24 is a chair range which stands for comfortable seat quality in free swinging chairs and which radiates a modern look by way of the expressive form of the seat bowl and the versions of the substructures incorporating flat steel.

Product features

- Flat steel construction 30 x 18 mm
- Upholstery on inside formed wooden seat bowl
- 2 backrest heights: 85 cm and 97 cm
- Chair with or without armrests
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Metal surfaces

- High-gloss chrome
- Matt chrome

Cover materials

- High-grade leather in contemporary colours
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Microfibre “Dinamica” in homely colours
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer’s fabrics possible (price group = best fabric price group)

Surface coating of metal armrests

The metal armrests have covers in the same fabric/leather type and colour as the reverse side of the chair back. However, the following exceptions apply.
For the textile cover fabrics **Structured fabric (63..), Cotton-wool-Jacquard (75..), Woven Jacquard (82..), Woven Jacquard glossy (83..)** and **Wool fabric (80..),** the armrests have covers in leather (51..) in the following colours:

in 5105 (black leather) for	6302	6304	6305	8001	8004	
in 5109 (cream leather) for	7501	8002				
in 5101 (beige leather) for	7502	8201				
in 5104 (anthracite leather) for	7504	7505	8204	8206	8207	8303
in 5110 (mocca leather) for	6301	6303	7503	8203	8205	
in 5114 (grey-brown leather) for	8003					
in 5122 (sand leather) for	8301					
in 5123 (brown-black leather) for	8302

D 27 The light system chair

The lightness of the D 27 is most convincing, both in design and weight. It is clearly distinguished by the various substructure versions in wood and metal. The great number of versions available captivate the viewer with their graceful seams and the attractive contours of the inside sections of the armrests.

There are two different models of the D 27 to choose from.

Model 1: D 27 with intricate upholstery
(D 27-1, D 27-2, D 27-5 and D 27-6)

Product spectrum:
- Chair with or without armrests
- Armrest version: open armrests
- 2 substructure versions: 4-legged solid wooden substructure or free-swinging metal substructure

Product features:
- Seat bowl of 3-dimensionally profiled plywood with intricate upholstery of high-grade cut foam
- Individual choice of legs through 2 substructure versions: Substructure of solid wood in different wood versions or of tubular steel, optionally black powder-coated, high-gloss chrome or stainless steel colour
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Metal surfaces
- Black powder-coated
- High-gloss chrome
- Stainless steel colour

Cover materials
- High-grade leather in contemporary colours
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.

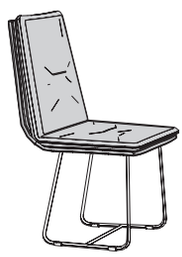
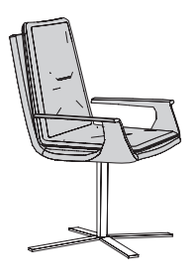
D 27 The light system chair

The lightness of the D 27 is most convincing, both in design and weight. It is clearly distinguished by the various substructure versions in wood and metal. The great number of versions available captivate the viewer with their graceful seams and the attractive contours of the inside sections of the armrests.

There are two different models of the D 27 to choose from.

Model 2: D 27 with intricate and additional upholstery
(D 27-8 to D 27-15)





Product spectrum:
- Chair with or without armrests
- Armrest version: open armrests
- 3 substructure versions: 4-legged solid wooden substructure, arched substructure or crossed substructure made of metal

Product features:
- Seat bowl of three-dimensional formed plywood with intricate upholstery of high-grade cut foam and additional padding/foam (approx. 1,240 g)
- Tilt function (conference bracket with 12° angle, held in start position, 2 pre-set spring firmness levels soft and firm); only possible in the versions with the crossed substructure
- Individual choice of substructure with 3 substructure versions:
  Substructure version in solid wood in different wood versions, with an arched substructure made of tubular steel or with a crossed substructure made of aluminium with a pillar made of steel, optionally black powder-coated or high-gloss chrome
- Max. load: 120 kg
- Plastic and felt gliders are included
  (for hard and soft floors)

Metal surfaces
- Black powder-coated
- High-gloss chrome

Cover materials
- High-grade leather in contemporary colours
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Microfibre “Dinamica” in homely colours
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer’s fabrics possible (price group = best fabric price group)

D 28

Intricate legs, curved forms and invitingly soft upholstery, these are the three hallmarks of the D 28 chair. The extra comfortable upholstery in particular determines the character of this series of chairs, which has been constructed with ideal sizes for seat depth, seat height and backrest height in mind, and so adapts ergonomically to a person's physical contours.

Product spectrum

- Chair in two backrest heights
- Chair with or without armrests
- Armrest version: closed upholstered armrest
- Intricate legs, metal substructure in three versions

Product features

- Concave curved backrest and armrests
- Visually adapted, curved back seam
- Ergonomically comfortable upholstery
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Metal surfaces

- Black powder-coated
- Silver structured lacquer
- High-gloss chrome

Cover materials

- High-grade leather in contemporary colours
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Microfibre "Dinamica" in homely colours
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's fabrics possible (price group = best fabric price group)

S 200

The S 200 is an extremely comfortable wooden chair that invites you to relax for a while and its timeless design attracts everyone‘s glances. The substructure of solid oak or walnut harmonises perfectly with the finely upholstered ergonomic seat. Nappa leather is available as a cover in a choice of colours.

Product features

- Substructure of solid wood
- Back and seat of sturdy beech plywood
- Upholstery composition: polyurethane foam with a volume weight of 35/50 kg/m^3 (RG 35/50) and an extra wadding layer (100 g)
- Chair delivered unassembled
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Wood surfaces substructure

- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Customer’s fabrics not possible

Ordering note / example:
Please add the corresponding cover no. to the type no. of the chair:
- chair S 200 with substructure version in solid natural oak = type no. S00211
- with a cover in black leather = cover no. 5105
- results in order no. S002115105

Information on types of fabric and names of materials for covers see pages 54-56!

Possible leather (51..)
5101 = beige
5105 = black
5110 = mocca
5114 = grey-brown
5122 = sand
5123 = brown-black
5125 = grey

S 300

S 300 is the family name for a chair series that is characterised by individuality and sitting comfort. The composition of the seat with its belt and Nosag springs means that you still feel comfortable after sitting on it for longer periods. Besides a variety of forms and substructures in metal or wood, there are also armrests and different types of seams on the chair back to choose from.

Product features

- Substructure of rectangular construction with a surface of metal (20 x 20 mm) or of solid wood (40 x 40 mm)
- Voluminous upholstery of substructures, seat composition with belts and Nosag springs
- Two different backrest heights
- With optional armrests
- With three optional seams for the backrest to choose from (see below)
- Seat upholstery composition: polyether foam with a volume weight of 40 kg/m^3
- Back upholstery composition: polyurethane foam with a volume weight of 21 kg/m^3
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Seams

Back without leather seam

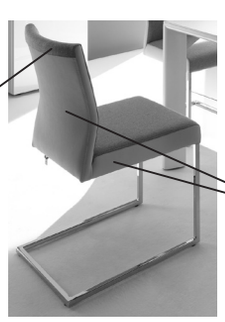
Back with vertical leather seam

Back with horizontal leather seam

Colour combinations

With the S 300 it is possible to order the reverse side of the chair back with the sides of the seat surface and the front side of the chair back with the seat surface in different fabrics. Please state clearly in the order! When exchanging versions from different fabric price groups, the higher fabric price group is always charged.
Note: approximately the top 5 cm on the reverse side of the chair back are in the same fabric version as the front side of the chair back.

Front side of the chair back with the seat surface and approximately the top 5 cm on the reverse side of the chair back



Reverse side of the chair back with the sides of the seat surface

Surfaces for substructure

- Ground stainless steel
- Metal powder-coated anthracite
- Metal powder-coated stainless steel colour
- High-gloss chrome
- Solid natural oak
- Solid walnut

Cover materials

- High-grade leather
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's fabrics not possible

Surface coating of metal armrests

The metal armrests have covers in the same fabric/leather type and colour as the reverse side of the chair back.

S 500

The S 500 chair specially designed for the T 70 dining table looks just as light with its curved backrest. The Keder seam on the leather fits snugly on the frame. It is already a classic in its own right in design and workmanship.

Product features
- 4-legged substructure of metal or solid wood
- Free-swinging substructure of metal
- Back section and seat of beech plywood, 17.0 mm or 10.5 mm thick
- Seat and back upholstery composition: polyurethane foam with a volume weight of 40 kg/m³ (RG 40)
- Stackable (chair S 500-1)
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Surfaces 4-legged substructure
- Aluminium glossy
- Metal powder-coated anthracite
- Metal powder-coated stainless steel colour
- Solid maple
- Solid natural oak
- Solid walnut

Surfaces of free-swinging substructure
- Metal powder-coated anthracite
- Metal powder-coated stainless steel colour
- High-gloss chrome
- Dark stained chrome

Cover materials
- High-grade leather in contemporary colours
  Note: Leather will reveal its own individual appearance as a result of waves arising from stretching and daily use. Material stretching, typical of fine, high-quality leather, results in the natural formation of wavy structures and the typical glossy surface (depressions) on the cover. The degree of material stretching depends on the structure, fineness and species of leather in question. Anyone choosing leather furniture shows that he appreciates durability and exclusiveness.
- Modern textile cover fabrics, easy-to-care for with high-quality protection against soiling
- Customer's fabrics not possible

Mixxit S 700

If you are looking for a modern chair on arched supports with an incredibly beautiful bowl seat, you will find just what you are looking for here, just as you would if you prefer an ultra-comfortable cushioned chair on a revolving star-shaped substructure or even an inviting free-swinging chair. The chair design of the S 700 does full justice to the Mixxit concept. With five substructures of wood or metal (also powder-coated), five bowl seats and numerous high-quality covers and even more colours, you can create innumerable variations to meet your own wishes – and, above all, your own individual favourite chair: with or without armrests in trendy textiles or soft Nubuk-Touch leather, with an all-round Keder seam for the bi-coloured cover or with a soft, integrated seat cushion. All the designs are extremely compatible so that you can now create a variegated table just in one colour with them.

Product features

- 5 different substructure versions, optionally:
  Arched substructure of tubular steel construction, Ø 14 mm, with a surface of powder-coated metal
  Free-swinging substructure of tubular steel construction, Ø 22 mm, with a surface of powder-coated metal
  Star-shaped substructure, revolving, with a surface of aluminium, powder-coated or polished
  4-legged solid wooden substructure, Ø 37 mm, with transverse frames, Ø 32 mm
  4-legged solid wooden substructure, chair legs narrowing from 36 to 25 mm
- With optional armrests
- Back and seat of plywood, stable in form, 1.1 cm thick
- Composition of upholstery of seat and back: polyurethane foam with a volume weight of 42 kg/m^3
- Extra upholstery (chairs S 700-9 to -16, S 700-23 and -24): polyether foam with a volume weight of 23 kg/m^3
- Max. load: 120 kg
- Plastic and felt gliders are included (for hard and soft floors)

Colour combinations

With the S 700 it is possible to order the reverse side of the chair back and the front side of the chair back with the seat surface in different fabrics. Please state clearly in the order! When exchanging versions from different fabric price groups, the higher fabric price group is always charged.

Surfaces for substructure

hülsta Planning Service

Lots to do? A customer wants his project finished and you haven't got enough time? Or the project is so complex that it will take too much time?

This is exactly the kind of situation we created the hülsta Planning Service for. hülsta's employees create the required project for you at short notice. Based on your information, we implement the project perfectly with all views and a complete order list ready for immediate forwarding to the customer.

The hülsta check list (available at **https://hulsta.com/de/service/showroom/**) makes it all really easy for you. You won't forget anything with this list and the customer receives a project he will be thrilled about as quickly as possible.

hülsta Planning Service
Tel.: +49 (0) 2563 / 86-0
Fax: +49 (0) 2563 / 86-2666
Mail: Planungsservice-Handel@huelsta.de
Workdays from 8.00 a.m. until 6.00 p.m.

Special wishes? Come to us!

Maximum individuality! – Maximal flexibility! – hülsta makes most of your special wishes possible. And if you do have a wish which is not quite so easy to implement, just give us a call or send us a mail or a fax. We have our own hülsta "Special Wishes Team" who are there to help you realise just these customer requests. These colleagues are professionals when it comes to special products. They plan and calculate the products possible for you and even develop an alternative suggestion if the idea should turn out to be technically impossible.

Here is an overview of the hülsta range of special wishes:
- A lot of special products can be ordered simply via the type list
- Special-sized products are planned simply and professionally
- Competent colleagues advise you by phone, by fax and by mail
- You will be sent alternative suggestions if the idea is technically impossible
- Many special-sized products are available without a surcharge
- Specially qualified carpenters and technicians implement your plans perfectly

hülsta Special Wishes Team
