Tetrim brings clarity into bedrooms with its graphical units. The bed fits neatly in between cubes of lacquer and wood: in classical versions on legs or with a central arched support under the lying surface, and there is an upholstered neck cushion or an upholstered headboard for resting on. The L-shaped Tetrim compartment provides modest lighting, either in the form of a wall unit, a sideboard or an eye-catching unit in the wardrobe. Together with the console, mirror and illuminated shadow joints, it becomes a timeless dressing area.

### Lists of versions

#### Wardrobes

Model no.	Carcase and front	Price group	Model no.	Open compartments *: Frame version / inside carcass version
648	Pure white lacquer	I	940	bronze-colour / satinised glass, rear-lacquered grey-brown

\*\* Open compartments with aluminium frame; frame bronze-colour and interior carcass of satinised glass, rear-lacquered grey-brown or with silver-colour frame and interior carcass of satinised mirror glass. It is not possible to change the colours of the frame and interior carcass.

## Free colour choice according to NCS (Natural Colour System)

Information on this subject can be found on the following page.

## Changing versions

Colour combinations within individual units are possible. In this case please state the model number clearly and separately in the order! If versions from different price groups are exchanged, the higher price group is always charged.

# Range introduction

## NCS - the Natural Colour System®

The NCS index includes all the 1950 standard colours in the NCS system. The Natural Colour System is a logically organised colour classification system which is based on the natural colour perception of people. With NCS you can describe every imaginable colour visually and classify it. The NCS is based on 100 years of colour research and is today one of the most widely and frequently used colour designation systems in the world.

### Note on „Blue Angel“ (RAL-UZ 38) and Emissions label of DGM (Class A)

It is possible that the requirements of the „Blue Angel“ and the DGM Emissions Label cannot be met by some of the lacquer colours in price groups III and IV, depending on the colour mix (surface ratio of these colours in the corresponding order). However, the legal requirements are definitely met in all cases!

## Important notes

### Changing versions:

Colour combinations within individual units are possible. In this case please state the model number clearly and separately in the order! If versions from different price groups are exchanged, the higher price group is always charged.

### Glass cover shelves:

Please be sure to state the required version of the rear-lacquered glass cover shelves in the order!

### Ceramic cover shelves:

Please be sure to state the required version of the ceramic cover shelves in the order!

### Open compartments:

Open compartments and rear-lacquered glass fronts of the intermediate and design units with aluminium frame; frame bronze-colour and interior carcass of satinised glass, rear-lacquered grey-brown or with silver-colour frame and interior carcass of satinised mirror glass. It is not possible to change the colours of the frame and interior carcass. Please be sure to state the required version in the order!

### Bed frames, bed legs:

Bed legs of beds with headboard in lacquer version and upholstered cushion always in the same version as the top bed frame, lower bed frame of metal, bronze- or silver-coloured, powder-coated. Bed legs of beds with upholstered headboard of metal, bronze- or silver-coloured, powder-coated. Please be sure to state the required version in the order!

### Bed corner/mitre connectors:

Bed corner/mitre connectors are available in various versions. Please state the required version of the bed corner/mitre connectors of the bed with upholstered headboard clearly in the order!

### Standard interior fittings (for ancillary units):

Fitted wooden shelves are included behind doors at 2 Raster intervals.

**Switch cable** (when using a foot switch in combination with open compartments with a bronze-coloured frame):

The lamps are normally operated by an external foot switch. The colour temperature of the LED lamps is cold white if a foot switch is used. If the warm white start colour is desired for **open compartments with a bronze-coloured frame**, the switch cable supplied in fittings bag 2907 must also be used in accordance with the assembly instructions. 1 switch cable is supplied per open compartment with a bronze-coloured frame. The use of a radio remote control with change of colour temperature is also possible (at a surcharge).

### Drawer frames in standard grey

### Wall units:

If units are to be included as wall units, a wall bracket must be ordered.

### Stacked units:

If units are stacked on top of one another, a wall bracket is only to be ordered for the stacked unit(s) if the stacked unit is wider than the floor unit resp. stacked in an off-set position.

### Combinations of floor and wall units:

If floor and wall units are combined within an arrangement, there must not be any skirting boards in the room near the floor units, otherwise they must be removed.

### Max. load:

Max. load of wooden shelves (up to 70.4 cm width) as well as drawers: 25 kg

Max. load of wooden shelves (between 70.4 and 105.6 cm width): 15 kg

Max. load of wooden shelves (from 105.6 cm width): 10 kg

Max. load of cover shelves: 35 kg per metre length for floor units.

**Please also note any existing maximum load information for individual units which may be stated later, the general load information for wall units as well as the important notes on the quality of walls at the end of this type list.**

### hülsta-Push-to-open:

Drawers, flaps and hinge-doors with hülsta-Push-to-open device. All drawers on hidden bearings as fully pull-out units.

## Information on the sketches

### Partitions behind flaps

Partitions are used behind flaps in front widths from 123.2 cm. In the sketches the partitions are shown by dotted lines.

### Split drawer frames:

Split drawer frames are used for drawers in front widths from 123.2 cm (the partitions are shown by dotted lines in the sketches). The front widths of the drawers are illustrated at the sketches of the units so that you can order suitable accessories for the drawers.

### Order of markings

The markings for the fronts go from left to right and/or from top to bottom.

1 drawer 1 flap

1 open compartment; 2 doors

Wall fitting

**Important notes:** Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units. That is why wall mounting should only be carried out by properly trained and qualified fitters. hülsta supplies materials for mounting units on walls for nearly all the units and which should be used for safety and for constructional reasons. The assembly materials supplied by hülsta (plugs, screws) are only suitable for fitting components on to concrete in firmness class C12/15. For other materials (please see separate materials table in the wall composition chapter) we provide you with an assembly mortar set as an extra order. Please note that this assembly mortar set is also only suitable for the materials listed in the materials table. If walls are made up of other materials (e.g. plastered or lighter wall materials), one should use another method of mounting better suited to the load on site. Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used. For the reasons stated above it is absolutely essential to enquire about the composition of any walls before signing any contracts.

Wall units / stacked units

If the 1 to 3 Raster units as well as lowboards are included as wall units, a maximum load per unit of 15 kg per metre must not be exceeded for reasons of stability! Max. load 15 kg per metre:

17.6 cm width: 5.0 kg	140.8 cm width: 20.0 kg
35.2 cm width: 5.0 kg	158.4 cm width: 20.0 kg
52.8 cm width: 7.5 kg	176.0 cm width: 25.0 kg
70.4 cm width: 10.0 kg	193.6 cm width: 25.0 kg
88.0 cm width: 12.5 kg	211.2 cm width: 30.0 kg
105.6 cm width: 15.0 kg	246.4 cm width: 30.0 kg
123.2 cm width: 15.0 kg	

If the 4 to 10 Raster units, side- or highboards are included as wall units, a maximum load per unit of 40 kg must not be exceeded for reasons of stability!

The wall units can only be fitted on absolutely solid walls. Light masonry is not suitable for this purpose.

For each project please remember to leave a 2.0 cm gap at the top to be able to mount units.

If units are planned as wall units, a wall bracket must be ordered.

If units are stacked on top of one another, a wall bracket is only to be ordered for the stacked unit(s) if the stacked unit is wider than the floor unit resp. stacked in an off-set position.

Labelling in type list drawings / assembly notes for wall units

**Labelling in type list drawings / assembly notes for wall units**

The majority of units have two wall mounting points (= number of base plates), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= base plates) is required, this is marked in the drawings in the type list with numbers in black boxes.

Please be sure to note here the information and notes in the “Wall composition” chapter!

3  
4

Notes on delivery

**Notes on delivery:**  
The majority of the units are delivered standard as **fully connected units (glued)** so that the carcase **cannot be disassembled**. There are however some **exceptions** to this rule:

Some carcasses are delivered as complete units but can be **disassembled into individual sections** in the final customer's home. These types are marked with a **1** in the type list.

Some carcasses are delivered **in individual sections** because of their size. These types are marked with a **2** in the type list.

The fronts with the number **2** are delivered separately and can therefore always be (dis-) assembled.

# Special combinations

**hülsta cover collection:** See "hülsta cover collection" type list. Please state the required version clearly in the order!

Please also note the mattresses and base frames in the "Sleeping systems" type list!

Special combinations are arrangements that are reduced in price. This price advantage is only available when the arrangement is ordered exactly as described. The special combinations can be enhanced by including accessories. These are charged extra.

## Special combinations

consisting of:

- one bed with upholstered headboard
- two 2 Raster high consoles or one console type 37021 and 37022 each
- one of the hinge-door wardrobes listed below

The price of the entire special combination (bed unit and wardrobe) can be found in the grey shaded boxes!

## Important notes:

- The consoles are only available in the carcass/front versions of the wardrobe.
- Price group II or III for the special combinations is charged depending on whether the upholstered headboard of the bed is ordered in a cover from the hülsta cover collection in price group II or III.

## Special-sized products for special combinations are possible!

**Pricing:** special combination + 15% plus all the required special-sized products (see „Special-sized products“)!

**Please note:** Height reductions of wardrobes remain free of charge!

## Important note:

Please be sure to state the type numbers of the required bed and consoles (see later) in the order!

Hinge-door wardrobes

Notes on planning hinge-door wardrobes according to the endless assembly principle

Hinge-door wardrobes can be planned endlessly and combined with one another. Due to the various element widths one can create many total wardrobe widths. In this way the available floor space can be exploited to the full. For each wardrobe combination, the first element on the left is considered to be the basic unit, incorporating both outer side-sections. One can only include one basic unit in each combination. When adding on extension units, the right-hand side-section of the basic unit is employed as the end side-section of the complete combination. In the case of single-door hinge-door units one can choose between left- and right-hand hinges. The graphics shown below give you an excerpt from our wardrobe assortment.

Standard interior fittings per unit: 2 fitted shelves, 1 clothes rod. All interior surfaces are in white lacquer version.

Dimensions

	without top LED lamp	with top LED lamp
Heights incl. plinth	229.6 cm	234.6 cm
	Height reductions at intervals of 1.0 cm without surcharge	
Depths	61.4 cm	74.2 cm
Widths	see pages 9-11

Hinge-door wardrobes

- Hinge-door wardrobes can be planned endlessly and combined with one another
- 3 intermediate units
- 2 design units
- Front mirrors and lamps against surcharge
- Unit outside widths: 42, 52, 82, 102 cm (basic units)
- 40, 50, 80, 100 cm (extension units)
- Unit inside widths: 38, 48, 78, 98 cm
- Wardrobe outside depth: 61.4 cm
- Wardrobe inside depth: 56.0 cm
- Door opening angle: approx. 94°

Lamps

All hinge-door wardrobes are available with top LED lamps. One top LED lamp is fitted standard above each element – 1 or 2 door – 12 V; 2.4 W. If required, a top LED lamp can be fitted centrally above each door. Please include a sketch in all cases. Switching is done by an external foot switch. A radio remote control is also available as an alternative, which is charged extra. The radio remote control incorporates one transmitter and one receiver which operate all the LED lamps. The foot switch is omitted when the radio remote control is employed.

# Accessories for beds

## Additional fittings for beds

### Two different surface heights

Beds with headboard in lacquer version and upholstered cushion are available in two different surface heights, optionally:  
with 19.8 cm high legs = surface height 1 (standard height) or  
with 30.5 cm high legs = surface height 2 = type **3004**  
If surface height 2 is required, please state clearly in the order!

**Not possible for beds with upholstered headboard!**

Surface height 1 (standard height)

Surface height 2 (without surcharge)

**3004**  
without surcharge

### Surcharge for arched support

Beds with headboard in lacquer version and upholstered cushion normally stand on rectangular legs. They are also available optionally on an arched support with a hovering look at a surcharge. Please state clearly in the order! Arched support always in same version as top bed frame.

**Not possible for beds with upholstered headboard!**

**3003**  
-

### Surcharge for bed surround in wood version

The beds with upholstered headboard have a standard bed surround in a lacquer version. They are also available optionally in a wood version against a surcharge. Please state the required version clearly in the order!

**Not possible for beds with a headboard in lacquer version and upholstered cushion!**

**3000**  
-

### Bed corner/mitre connectors of beds with upholstered headboard

Bed corner/mitre connectors are available in various versions (see list of versions on the range introductory page).

**Please state the required version of the bed corner/mitre connectors of the bed with upholstered headboard clearly in the order!**

**Not possible for beds with a headboard in lacquer version and upholstered cushion!**

without surcharge

## Media accessories for lowboards

### Cable apertures

 <p><b>Cable aperture K1</b> silver-coloured; Ø 8.0 cm It is possible to fit a cable aperture in the top and bottom shelf of the lowboard as well in constructional shelves. The cable aperture can be made at the rear of the shelf. The position is in the centre of the compartment, distance from centre of aperture to rear edge of unit: 10.0 cm.</p>	<p><b>K1</b> -</p>
 <p><b>Cable aperture K2</b> silver-coloured; Ø 8.0 cm It is possible to fit a cable aperture in the rear wall of the lowboard. Positioned in centre of compartment.</p>	<p><b>K2</b> -</p>
 <p><b>Cable aperture K7</b> silver-coloured; 7.0 x 12.0 cm It is possible to fit a cable aperture in the top shelf of the lowboard. The position is in the centre of the compartment, flush with the rear edge of the unit.</p>	<p><b>K7</b> -</p>
 <p><b>Cable aperture K8</b> silver-coloured; 12.8 x 3.2 cm It is possible to fit a cable aperture in the top shelf of the lowboard. The cable aperture can be made at the rear rim of the top shelf. Positioned in centre of compartment.</p>	<p><b>K8</b> -</p>
 <p><b>Cable aperture K9</b> 13.0 x 1.6 cm It is possible to fit a cable aperture in a fitted shelf or in the bottom shelf. The cable aperture can be made at the rear rim of the fitted shelf or at the rear rim of the bottom shelf behind the rear wall. Positioned in centre of compartment.</p>	<p><b>K9</b> -</p>
 <p><b>Cable aperture K11</b> 4.0 cm high It is possible to fit a cable aperture in the rear wall of the lowboard. The rear wall is milled out below the top shelf. Positioned in centre of compartment. Usable width: compartment width minus 26.8 cm.</p>	<p><b>K11</b> -</p>
 <p><b>Cable aperture K20</b> silver-coloured; Ø 8.0 cm It is possible to fit a cable aperture in the partitions of the lowboard.</p>	<p><b>K20</b> -</p>

## IR repeater set

### IR repeater set

Infrared signal transmission set for operating media units behind wooden/lacquered fronts. You can operate all the units in one compartment with one set. The following applies:

- One set must be used in each compartment. 2 transmitters can also be installed in large compartments in order to increase performance. In this case only one additional transmitter needs to be ordered.
- The transmitter must be placed in the direct vicinity of the receiver eye.
- Transmittable IR frequency band 20 – 60 kHz
- Up to 3 transmitters can be combined with one receiver.

It is possible to use 3 transmitters via 1 receiver including Master box. This enables simultaneous operation of 3 different furniture compartments or in critical situations it allows fitting out one furniture compartment with several transmitters in order to increase the performance in this compartment or to operate 2 end units placed next to one another.

The IR repeater set consists of:

- 1 receiver eye (Ø 3.0 cm) incl. standing bracket
- 1 electrical transmitter
- 1 plug EVG 12 V
- Cable clips

Please note the details stated in the operating instructions!

**IR repeater set**  
1 receiver eye and 1  
transmitter incl. standing  
bracket

**2001**

-

**Extra transmitter**

**2003**

## Flat screen supports

### Flat screen support WTL6

The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 102-216 cm (40"-85"); max. load: 45 kg. Suitable for Curved TV's.

Flat screen support compatible with VESA Norm standard:

min.: 200 x 200 mm  
max.: 600 x 400 mm

for fitting anywhere on walls

**9704**

-

### Flat screen support THIN 545, ideally adaptable

The flat screen support can be adjusted 3-dimensionally. It is suitable for flat screens with a screen diagonal of 81-140 cm (32"-55") and a maximum depth of 4.5 cm; max. load: 25 kg.

Go to [www.vogels.com](http://www.vogels.com) to check if your flat screen can be fitted on this flat screen support. Enter the name THIN 545. After a few steps you can see if your flat screen TV is compatible with the flat screen support.

Not suitable for Curved TV's.

Flat screen support compatible with VESA Norm standard:

min.: 100 x 100 mm  
max.: 600 x 400 mm

for fitting anywhere on walls

**9304**

-

### Flat screen support THIN 515

The flat screen support can be angled up to a max. 15°. It is suitable for flat screens with a screen diagonal of 102-165 cm (40"-65") and a maximum depth of 5.0 cm; max. load: 25 kg.

Go to [www.vogels.com](http://www.vogels.com) to check if your flat screen can be fitted on this flat screen support. Enter the name THIN 515. After a few steps you can see if your flat screen TV is compatible with the flat screen support.

Not suitable for Curved TV's.

Flat screen support compatible with VESA Norm standard:

min.: 100 x 100 mm  
max.: 600 x 400 mm

for fitting anywhere on walls

**9504**

## Radio remote control with change of colour temperature

The lamps are normally operated by an external foot switch. The colour temperature of the LED lamps is cold white if a foot switch is used. A 4-channel radio remote control is also available as an alternative, which is charged extra. Several lamps can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set to any level from cold white (approx. 6500 kelvin = the basic setting of the LED lamps) to warm white (approx. 2700 kelvin). If warm white is required, a radio remote control must be ordered. It is also possible to switch all channels on and off simultaneously with the "all on" or "all off" buttons. The radio remote control consists of one transmitter and one receiver. If several receivers are required because of the arrangement of the units, these and the corresponding cables are provided ex-works (no surcharge). The foot switch is omitted when the radio remote control is used.

**2119**

Special heights, special widths, special depths

Special heights

- Hinge-, folding- and sliding-door wardrobes can be reduced in height at intervals of 1.0 cm.
- Below eye-level we recommend fitting a top cover shelf made of panelling material.
- Please state in order!
- Special heights in stepped versions (not possible on sliding-door wardrobes) at a surcharge.

Surcharge per step:

00030

-

Special widths

Only applies to hinge- and folding-door wardrobes

- Single-door units, left or right hinges, can be reduced down to 25 cm width (apart from profiled doors).
- Twin-door units can be reduced at both sides down to 50 cm total width (apart from profiled doors).
- Interior fittings such as drawers and other fittings cannot be reduced in width.
- For notes on width reductions on MULTI-FORMA II sliding-door wardrobes please see special-sized products for MULTI-FORMA II!

Special depths

- Depth reductions are made on side sections, plinths, cornices and shelves.
- Interior fittings such as drawers and other fittings cannot be reduced in depth.
- A max. reduction of 30.0 cm is possible on hinge- and folding-door wardrobes.
- A max. reduction of 9.0 cm is possible on profiled hinge-doors.
- For sliding-door wardrobes, a max. reduction of 30.0 cm is possible (max. 18 cm in combination with the electrical opening system for MULTI-FORMA II).
- Please note that for technical production reasons not every special depth can be achieved:  
2.5 cm standard reduction between 0 and 2.5 cm  
5.0 cm standard reduction between 4.5 and 5.0 cm  
27.5 cm standard reduction between 27.0 and 27.5 cm

Notes on calculating sizes of sloping units

Side sloping

Sloping is only possible on single-door units. The door hinge (left or right) is positioned on the taller outer side of the unit.

Measurements required:

- H 1 = Room height
- H 2 = Height of slope (If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- B 1 = Width of slope
- B 2 = Width of slope
- G = Total width
- S = Wardrobe width

Please note!

- If the slope cuts across the position of a handle, the handle of this door only is positioned further down in production.
- As floors, ceilings and walls are never exactly straight, the exact room size must be measured using a spirit level.
- If a cornice is fitted, please state if this is to be continued in the sloping section.

Rear sloping

Measurements required:

- H 1 = Room height
- H 2 = Height of slope (If a space is required between the wall and the wardrobe/unit, please state the exact distance.)
- T 1 = Depth of slope
- T 2 = Depth of slope

## Special-sized products for special combinations:

Pricing: special combination + 15% plus all the required special-sized products (see above)!

More special products are possible.

Please get in touch with your customer advisor.

## Special articles

Wardrobe doors are also available as separate units and are charged as follows:

**For 1 hinge-door/folding-door wing:** 50% of the concerning 1-door hinge-door extension unit

**For 1 sliding-door including mechanism:** 35% of the twin-door sliding-door wardrobe

For door superstructures, type **100** (max. 98 cm wide, only for assembly between wardrobes): 100% of twin-door hinge-door extension unit

**Panels** for side and top covering of fitted wardrobes (support construction and fitting materials must be acquired on site).

**For veneered/lacquered versions** (max. 268.0 cm long, max. 59.0 cm wide, 2.0 cm thick)

Basis charge per order:	9901	-
+ price per m <sup>2</sup> - lacquer	990	-
+ price per m <sup>2</sup> - veneer	990	-

Veneer match with fronts can not be guaranteed.

## Rim veneer

## Special colours; Note on „Blue Angel“ / Emissions label of DGM

## Special colours

All the hülsta lacquer colours are possible for nearly all the hülsta ranges. Availability and prices on request.

## Note on „Blue Angel“ (RAL-UZ 38) and Emissions label of DGM (Class A)

It is possible that the requirements of the „Blue Angel“ and the DGM Emissions Label cannot be met by some of the lacquer colours in price groups III and IV, depending on the colour mix (surface ratio of these colours in the corresponding order). However, the legal requirements are definitely met in all cases!

Radio remote control with change of colour temperature

The lamps are normally operated by an external foot switch. The colour temperature of the LED lamps is cold white if a foot switch is used. A 4-channel radio remote control is also available as an alternative, which is charged extra. Several lamps can be operated with each of the 4 channels. All 4 channels can be dimmed separately at the push of a button. The colour temperature of all 4 channels can be set to any level from cold white (approx. 6500 kelvin = the basic setting of the LED lamps) to warm white (approx. 2700 kelvin). If warm white is required, a radio remote control must be ordered. It is also possible to switch all channels on and off simultaneously with the "all on" or "all off" buttons. The radio remote control consists of one transmitter and one receiver. If several receivers are required because of the arrangement of the units, these and the corresponding cables are provided ex-works (no surcharge). The foot switch is omitted when the radio remote control is used.

- The following points must be noted with the radio remote control:**
- The receiver must be positioned behind a rear wall or under plinth shelves (at least 20 mm space required under plinth shelves).
  - The total wattage power of all lamps included per receiver must not exceed 30 W.
  - 4 channels = 4 light groups
  - 1 light group = x lights
  - All lamps within a light group can be dimmed to the same brightness.
  - The change of the colour temperature takes place for all lamps in all light groups.
  - The radio remote control is not suitable for equipment operating on 110 V.
- Please be sure to note the operating and programming instructions!**

4-channel radio remote control with change of color temperature

4-channel radio remote control with change of color temperature

Type	2119	-
------	------	---

## Examples of use (schematic diagrams)

### Example 1

#### Lights inside a unit

Channel 1 operates (and dims) all the lights in light group 1, i.e. the LED spotlight in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the LED spotlamps in the open compartment

Channel 3 operates (and dims) all the lights in light group 3, i.e. the LED spotlight in the right cabinet

#### Notes:

The total wattage power of all lamps included per receiver must not exceed 30 W. The change of the colour temperature takes place for all lamps in all light groups.

### Example 2

#### Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1, i.e. the LED spotlight and the LED light panels in the left cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the LED spotlamps and the LED light panels in the centre cabinet

Channel 3 operates (and dims) all the lights in light group 3, i.e. the LED spotlight and the LED light panels in the right cabinet

#### Notes:

The total wattage power of all lamps included per receiver must not exceed 30 W. The change of the colour temperature takes place for all lamps in all light groups.

### Example 3

#### Lights in units set apart

Channel 1 operates (and dims) all the lights in light group 1, i.e. the LED spotlamps in the left, centre and right cabinet

Channel 2 operates (and dims) all the lights in light group 2, i.e. the top LED light panels in the left, centre and right cabinet

Channel 3 operates (and dims) all the lights in light group 3, i.e. the bottom LED light panels in the left, centre and right cabinet

#### Notes:

The total wattage power of all lamps included per receiver must not exceed 30 W. The change of the colour temperature takes place for all lamps in all light groups.

# Usable bed inside height and space under bed

## Note on usable bed inside height:

The support slats of the hülsta beds are delivered in the centre position, i.e. they can be adjusted by 3.2 cm upwards and downwards. If the slats are set in the lowest position, the **maximum usable bed inside height** is achieved.

In the case of some beds, the bed inside height is comparatively low. This means that mattresses in combination with base frames that are somewhat higher are not held so well by the bed side sections. Please note that the usable bed inside height of beds with height adjustable support slats is reduced when these are set higher.

This is how to calculate the individual height from the data supplied with the base frames:

Example: bed and hülsta flex basic B base frame  
(back and foot sections adjustable)

Max. usable bed inside height:  
18.0 cm

approx. 12.5 cm for holding  
mattress

5.5 cm total height of base frame  
(example: hülsta flex basic B)

## Note on space under bed:

The storage space underneath the base frame is calculated from the bed height minus the usable bed inside height.

Example bed:  $42.2 \text{ cm} - 18.0 \text{ cm} = 24.2 \text{ cm}$ .

## Wall composition / assembly instruction

### Important notes:

The composition of walls must be ascertained before concluding a contract and be checked by a qualified fitter before assembly takes place.

Assembly may only be carried out by a qualified fitter under careful observation of the assembly instructions.

The plastic Rawl plugs supplied by hülsta as a standard set are only suitable for concrete  $\geq C12/15$ , if the wall composition and compression strength corresponds to the table below. Under no circumstances must a unit be assembled on light masonry.

Furthermore, we provide a mounting set with assembly mortar for the types of walls listed below (see assembly mortar set below). Again, assembly must be carried out by a qualified fitter under careful observation of the wall composition and assembly instruction. The compression strength levels stated below must be met under all circumstances.

### Materials table

with a description of which sets are to be used with the following types of walls:

Standard set	Assembly mortar set only suitable for the materials stated below!	
Concrete C12/15 Compression strength $\geq 15 \text{ N/mm}^2$ 	 Building bricks Mz 12 Compression strength $\geq 12 \text{ N/mm}^2$	 Solid blocks of light concrete V2 Compression strength $\geq 2 \text{ N/mm}^2$
	 Limestone blocks KS 12 Compression strength $\geq 12 \text{ N/mm}^2$	 Perforated blocks of light concrete Hbl 2 Compression strength $\geq 2 \text{ N/mm}^2$
	 Perforated sand lime bricks KSL12 Compression strength $\geq 12 \text{ N/mm}^2$	 Aerated concrete PP2 Compression strength $\geq 2 \text{ N/mm}^2$
	 Vertically perforated bricks HLz 12 Compression strength $\geq 12 \text{ N/mm}^2$ Bulk density $\geq 1.0 \text{ kg/dm}^3$	

A different and more suitable type of mounting must be chosen by a qualified fitter in all other cases. hülsta cannot accept any responsibility for the choice of any other types of mounting! Please note that if the units are not mounted properly on the wall, there is a risk of the units falling down or tipping over – especially when alternative mounting materials acquired on site have been used. Generally speaking, you as a dealer/qualified fitter are responsible for the correct wall mounting of the units.

## Mounting sets

### Labelling in type list drawings / assembly notes for wall units

The majority of units have two wall mounting points (= number of support boards), if these are to be fitted as wall units. This is not explicitly mentioned in the type list. If a different number of wall mounting points (= support boards) is required, this is marked in the drawings in the type list with numbers in black boxes. Every support board requires four mounting screws.

**3** = 3 support boards

**4** = 4 support boards, etc.

One **assembly mortar set** is sufficient for up to a maximum of 3 support boards or 4 wall side-panels.

**Important note:** Depending on the composition of the wall (see wall types illustrated above), assembly must be carried out using the special assembly mortar set and a standard trade mastic tool which are the basic essentials for safe and clean workmanship.

### Standard set

The standard set consists of 4 plastic Rawl plugs and 4 mounting screws and is sufficient for 1 support board. The standard sets are included in the packet of fittings to match the number of support boards.

### Assembly mortar set for up to a maximum of 3 support boards consisting of:

9x injection retaining sleeve  
9x screw-in sleeve  
1x injection cartridge  
2x static mixer  
1x assembly instructions

Please use the mounting screws from the standard set (supplied free of charge).

### Example of order:

- Add up number of support boards for all existing unit types
  - Divide the sum by "3"
  - Round up the result to a full number
- = Number of assembly mortar sets required

M2

## Your Hotline to hülsta

Do you have any questions or require any alterations to your order confirmation?  
Do you have any questions on our products or your current order?  
Do you have any complaints about supplied goods or required replacement parts?  
Contact Telephone: +49 (0) 2563 / 86-1627 • email: [orders@huelsta.com](mailto:orders@huelsta.com)

Do you have any questions, suggestions or wishes for the **hülsta product seminars**?  
Contact Telephone: +49 (0) 2563 / 86-1493 • email: [seminare@huelsta.com](mailto:seminare@huelsta.com)

## hülsta Planning Service

Your furn plan planning is so complex that you need our support? We have created the hülsta Planning Service for this kind of situation. hülsta employees will check your planning as quickly as possible. The customer gets a planning that will inspire him!

**hülsta Planning Service**  
Tel.: +49 (0) 2563 / 86-1060  
Fax: +49 (0) 2563 / 86-1000  
Mail: [Planungsservice-Handel@huelsta.com](mailto:Planungsservice-Handel@huelsta.com)  
Mondays to Fridays from 9.00 a.m. until 5.00 p.m.

## Special wishes? Come to us!

**Maximum individuality! – Maximal flexibility! – hülsta makes most of your special wishes possible.**  
And if you do have a wish which is not quite so easy to implement, just give us a call or send us a mail or a fax. We have our own hülsta "Special Wishes Team" who are there to help you realise just these customer requests. These colleagues are professionals when it comes to special products. They plan and calculate the products possible for you and even develop an alternative suggestion if the idea should turn out to be technically impossible.

### Here is an overview of the hülsta range of special wishes:

- A lot of special products can be ordered simply via the type list
- Special-sized products are planned simply and professionally
- Competent colleagues advise you by phone, by fax and by mail
- You will be sent alternative suggestions if the idea is technically impossible
- Many special-sized products are available without a surcharge
- Specially qualified carpenters and technicians implement your plans perfectly

**hülsta Special Wishes Team**  
Tel.: +49 (0) 2563 / 86-1060  
Fax: +49 (0) 2563 / 86-1000  
Mail: [Sonderwunsch@huelsta.com](mailto:Sonderwunsch@huelsta.com)

## We are open Saturdays for you, too!

Our **Saturday hotline** is available from **10.00 a.m. until 5.00 p.m.**

Telephone: +49 (0) 2563 / 86-1800

The hülsta Sales Department is available  
**mondays to Fridays from 9.00 a.m. until 5.00 p.m.**
